Chairman's Message

Dear Stakeholder,

I am honored to present the Annual Report of Signify Innovations India Limited for the financial year 2024-25. Amidst a challenging global economic and geopolitical climate, India's manufacturing and infrastructure sectors have shown considerable resilience. This environment extended to the lighting industry, as it grappled with significant value destruction due to price reductions, impacting overall growth for the domestic industry. Despite these headwinds, Signify Innovations India Limited maintained its profitability while achieving year-on-year growth, with a strong contribution from our connected offerings portfolio. This performance further strengthened our market leadership, in line with our vision of shaping the future of illumination in India.

Aligned with the **'Make in India'** philosophy, we signed an agreement for a **joint venture with Dixon Technologies** to enhance lighting manufacturing excellence in India, bringing the best of technology, pricing, and product offerings for our customers.

FY24-25 marked the start of Signify's fifth and the final year of **its Brighter Lives, Better World 2025** sustainability program commitments that contribute to doubling its positive impact on the environment and society. We are tracking ahead of its 2025 target to reduce emissions across the entire value chain by **40% against the 2019 baseline - double the pace required to achieve the Paris Agreement's climate ambitions.** We have received several independent ratings for our sustainability efforts, inclusion in the Dow Jones Sustainability World Index for the eight-year running, S&P's Global Corporate Sustainability Assessment and the EcoVadis Platinum Medal, placing us in the top 1% of all companies assessed. Additionally, we announced our ambitious **Climate Transition 2040 plan** which outlines our roadmap to net-zero emissions by 2040.

Our **strategy to drive value through our growth curve** includes four pillars - **expand** in specialty, **outperform** in connected, **compete** in non-connected and **harvest** in conventional business driven by innovation, sustainability, people, operational & digital excellence. We continued to lead the LED transformation in India, launching new products, expanding our Philips Smart Light Hubs network and improving our supply chain model to meet customer demands.

Our **digitalization roadmap** is aimed at creating future-ready processes, customer interfaces, and products. We expanded our Direct-to-Consumer (D2C) website with over 1100 products across various categories, making it more convenient for customers to purchase our products. We continued to increase our e-commerce and q-commerce presence in India.

Building an **inclusive culture** where talent can flourish, and individuals grow personally and professionally is fundamental to us driven by our purpose, prioritizing authenticity and building a truly safe space for everyone to be fully engaged and to achieve their fullest potential. We actively drive this cultural transformation by championing **Diversity, Equity, and Inclusion,** robustly recognizing performance, and strategically developing our internal talent pool. Our intentionality in building an inclusive environment is reflected in our focus on representation across gender, **generational cohorts, and the purposeful inclusion of persons with disabilities** (PWD). Complementing this approach, are our comprehensive leadership programs, designed to equip all leaders with the essential skills to lead inclusively, ensuring a supportive and equitable environment for everyone.

Our **CSR strategy** and initiatives resonate with our brand purpose which is to unlock the extraordinary potential of light for brighter lives and a better world, aimed at ensuring access to sustainable lighting for underserved communities. This year we have positively impacted over **1.6 million lives** with our holistic CSR programs across the country. Working hand in hand with our CSR partners, we have illuminated **191 schools, 840 villages, 53 health centers, and 35 playgrounds under our initiatives in India.**

Looking ahead to FY 2025-26, we anticipate some revival in demand, but we are equally cautious of cost and price development given the current dynamic external environment. We will continue to focus on driving innovation, building differentiated propositions and delivering the best quality products to our customers. We also anticipate growth in the professional business owing to government spending on infra and the expected growth in private capex.

Our commitment to India's growth story remains exceptionally strong, we extend our deepest gratitude to our customers, whose loyalty, trust, and invaluable feedback continue to motivate our leadership in the market. We also commend our employees for their unwavering professionalism and dedication, which has been instrumental in navigating this new phase of development.

Lastly and most importantly, we extend our thanks to our shareholders for their confidence in us and our business strategy.

Warm Regards,
Vinayak Deshpande
Chairman

I. The Members, whose names appeared in the Register of Members / list of Beneficial Owners as 22nd October, 2024, i.e. the cut-off date, has been paid ₹ 57.50/- (575%) per share as 1st Interim Dividend on the fully paid equity shares of the financial year 2024-25, within 30 days from the date of such declaration, duly approved by the Board of Directors on 22nd October, 2024 and a pay-out of ₹ 3,307.24 million.

II. Members whose shareholding is in electronic mode are requested to direct change of address notification and updates of saving bank account details to their respective Depository Participant(s). Members are encouraged to utilize the Electronic Clearing System (ECS) for receiving future dividends.

III. Members holding shares in demat form are hereby informed that bank particulars registered with their respective Depository Participants, with whom they maintain their demat accounts, will be used by the Company for the payment of future dividend. The Company or its Registrar cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the Depository Participant(s) of the Members. Members holding shares in demat form are requested to intimate any change in their address and / or bank mandate immediately to their Depository Participants.

IV. Members holding shares in physical form who have not registered/updated their mandate for receiving future dividends directly in their bank accounts through Electronic Clearing Services or any other means ("Electronic Bank Mandate"), can register/update their electronic Bank Mandate to receive future dividends directly into their bank account electronically, by sending following details/documents in addition to the documents mentioned in the Note No. 9(II) above by sending email to the Company at corporate.info@signify.com or contact KFintech at einward.ris@kfintech.com:

   a. Name and Branch of Bank in which dividend is to be received and Bank Account type;

   b. Bank Account Number allotted by your bank after implementation of Core Banking Solutions;

   c. 11 digit IFSC Code; and

   d. Self attested scanned copy of cancelled cheque bearing the name of the Members or first holder, in case shares are held jointly.

V. Members may note that the Income Tax Act, 1961, as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a Company after 1st April, 2020 shall be taxable in the hands of the Shareholders. The Company shall therefore be required to deduct Tax at Source (TDS) at the time of making the dividend. In order to enable us to determine the appropriate TDS rate as applicable, Members are requested to submit the documents in accordance with, the provisions of the Income Tax Act, 1961.

   a. For Resident Shareholders, TDS shall be made under Section 194 of the Income Tax Act, 1961 at 10% on the amount of Dividend declared and paid by the Company during financial year 2025-26 provided PAN is registered by the Shareholder. In the absence of PAN or invalid PAN (as per database of income tax portal) or if section 206AB is applicable, TDS would be deducted @ 20% (plus applicable surcharge and cess) as per Section 206AA of the Income Tax Act, 1961.

   However, no tax shall be deducted on the Dividend payable to a resident individual if the total dividend, if any, to be received by them during financial year 2025-26 does not exceed ₹ 10,000.

   Separately, in cases where the individual shareholder provides Form 15G (applicable to individual, who is a resident in India) / Form 15H (applicable to an individual above the age of 60 years), provided that the eligibility conditions are being met, no TDS shall be deducted.

   b. For Non-resident Shareholders, taxes are required to be withheld in accordance with, the provisions of Section 195 of the Income Tax Act, 1961 at the rates in force. As per the relevant provisions of the Income Tax Act, 1961, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) on the amount of Dividend payable to them. However, as per Section 90(2) of the Income Tax Act, 1961, the non-resident shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement (DTAA) between India and the country of tax residence of the shareholder, if they are more beneficial to them. For this purpose, i.e. to avail the Tax Treaty benefits, the non-resident shareholder will have to provide the following:

      - Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the shareholder is resident.
      - Self declaration in Form 10F if all the details required in this form are not mentioned in the TRC.
      - Self-attested copy of the Permanent Account Number (PAN Card) allotted by the Indian Income Tax authorities.
      - Self-declaration, certifying the following points:

         i. Member is and will continue to remain a tax resident of the country of its residence during the financial year;

         ii. Member is eligible to claim the beneficial DTAA rate for the purposes of tax withholding on dividend declared by the Company;

         iii. Member has no reason to believe that its claim for the benefits of the DTAA is impaired in any manner;

         iv. Member is the ultimate beneficial owner of its shareholding in the Company and Dividend receivable from the Company; and

         v. Member does not have a taxable presence or a permanent establishment in India during the financial year.

VI. Please note that the Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction / withholding on dividend amounts. Application of beneficial DTAA Rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by Non-Resident shareholder.

VII. TDS is deductible at the rate mentioned in the valid lower/Nil rate deduction certificate issued by the Income Tax Department under section 197 of the Income Tax Act, 1961, if such a valid certificate is provided.

VIII. Accordingly, in order to enable us to determine the appropriate TDS / withholding tax rate applicable, we request you to provide these details.

IX. Kindly note that the aforementioned documents may be submitted to the Company at corporate.info@signify.com or to KFintech at einward.ris@kfintech.com.

X. Members are requested to ensure updating their correct PAN details (whether in demat or physical shares both) in order to get necessary tax certificate aligned with their PAN details for receiving dividend amount after applicable tax deduction/withholding in future.

XI. Members are requested to contact KFintech / Investor Service Department of the Company for encashing the unclaimed dividends, if any, standing to the credit of their account.

XII. Pursuant to Sections 124, 125 and any other relevant provisions of the Companies Act, 2013 read with Investor Education and Protection Fund (Accounting, Audit, Transfer and Refund) Rules, 2016, dividends which are not encashed / claimed by the shareholder for a period of seven consecutive years shall be transferred to the Investor Education and Protection Fund (IEPF) Authority. The IEPF Rules mandate the Companies to transfer the shares of shareholders whose dividends remain unpaid / unclaimed for a period of seven consecutive years to the demat account of IEPF Authority.

Pursuant to Sections 123, 124 and 125 of the Companies Act 2013, the unpaid dividend that are due for transfer to the Investor Education and Protection Fund (IEPF) are as follows:

6. BUSINESS PERFORMANCE:

Amidst a challenging global economic and geopolitical climate, India's manufacturing and infrastructure sectors have shown considerable resilience. The lighting industry, however, had a challenging 2024-25 as it grappled with significant value destruction due to price reductions and resurgence of unorganized imports, impacting overall growth for the domestic industry.

Despite these headwinds, your Company was able to deliver strong business results during this period, delivering a growth in revenue and stable profitability. We continue to lead the market across all segments and could extend our market share in both professional and consumer segments. Overall, our business registered 1.5% growth in the revenue year-on-year. This performance not only affirms our market leadership but also demonstrates, our vision of shaping the future of illumination in India.

Aligned with the 'Make in India' philosophy, we signed an agreement for a joint venture with Dixon Technologies to enhance lighting manufacturing excellence in India, bringing the best of technology, pricing, and product offerings for customers. We remained steadfast in our commitment to innovation, sustainability, and delivering superior value to our customers and shareholders.

We focused on the introduction of new products, maintenance of cost leadership, strengthening of our Ecolink strategy, expansion of our portfolio in premium and connected lighting and BLDC fans, helping us drive growth in the business. Our decorative home lighting business also registered healthy growth, tapping into this ever-growing opportunity, we further expanded our Philips Smart Light Hubs network to 320+ stores.

We illuminated multiple prestigious projects such as the Kumbh Mela, Shastri Bridge, Cheerapali railway station, Gurudham Mandir, Vendhar Museum, various stadiums and projects with big conglomerates including many fortune 500 companies, across the nation.

Enabling our global transformation journey, we set up our global finance service center in Noida and the global digital center in Bangalore this year. Additionally, our engineering services from our innovation labs in Noida & Bangalore, Cooper lighting operations in Pune also grew in scale and we increased our headcount in these centers.

With the growing adoption of LED lighting, our conventional lighting business witnessed de-growth on expected lines, but we continue to sell domestically and export them to other markets across the world.

We continued our leadership in sustainability as we stepped into the concluding year of our Brighter Lives, Better World 2025 sustainability program that addresses climate action, circularity, and our impact on society. We have received several independent ratings for our sustainability efforts, including inclusion in the Dow Jones Sustainability World Index for the eighth consecutive year, S&P's Global Corporate Sustainability Assessment, and the EcoVadis Platinum Medal, placing us in the top 1% of all companies assessed. Additionally, we announced our ambitious Climate Transition 2040 plan, which outlines our roadmap to net-zero emissions by 2040, not just in our operations, but across the entire value chain globally.

13. BOARD EVALUATION:

In terms of the Nomination and Remuneration Committee Charter of the Company, duly approved by the Board, and pursuant to the provisions of the Companies Act, 2013, the Nomination and Remuneration Committee has prepared and approved a "Policy for Evaluation of the Performance of the Board of Directors", which was further adopted by the Board, to formally evaluate the effectiveness of the Board, its Committees along with performance evaluation of each Director to be carried out on an annual basis.

Accordingly, the annual performance evaluation of the Board, its Committees and each Director was carried out for the financial year 2024-25 based on a structured survey and personal discussion held between Chairperson of the Nomination and Remuneration Committee and each individual director separately.

The Nomination and Remuneration Committee also prepared structured questionnaires to evaluate the performance of the Board as a whole, individual performance of each Director and self – assessment carried out by the Directors.

The evaluation of the performance of the Directors was based on various aspects which, inter alia, included assessment of the level of participation, understanding of the role and responsibilities, understanding of the business and competitive environment, effectiveness of the contributions made during the Board meetings, understanding of the strategic issues and challenges for your Company etc. In assessing the overall performance of the Board, the parameters included the assessment of time devoted by the Board on the Company's long term goals and strategies, Board effectiveness, quality of discussions at the meetings of the Board, time spent and quality of discussions on key subjects like risk assessment and minimization, succession planning, discharging fiduciary and governance duties and performance of specific duties.

The performance of the Committees of the Board included aspects like understanding of the terms of reference by the Committee members, adequacy of the composition of the Committees, effectiveness of the discussions at the Committee meetings, performance of the Committee etc.

The Chairperson of the Nomination and Remuneration Committee plays a vital role in undertaking the evaluation of the Directors. The Chairperson also held separate discussion with each Director in person. Thereafter, the Nomination and Remuneration Committee discussed on the evaluation mechanism, outcome and the feedback received from the Directors. The Independent Directors at their separate meeting also discussed the performance of the Non-Independent Directors including the Chairman of the Board.

Your Board of Directors had discussed and analyzed its own performance, Board as whole, during the year, evaluated the Independent Directors pursuant provisions of Schedule IV of the Companies Act, 2013 and also reviewed the performance evaluation reports of various committees. Thereafter, the Board finally noted the overall feedback on the performance of the Directors and the Board as a whole and its Committees.

The overall outcome of this exercise to evaluate the effectiveness of the Board and its Committees was positive and members of the Board expressed their satisfaction.

18. HUMAN RESOURCES AND INDUSTRIAL RELATIONS:

A great workplace stems from providing an excellent employee experience. We achieve this by emphasizing three key areas: Our Purpose, our core values & behaviors, employee value proposition, and culture of meritocracy. Our Culture is the cornerstone of building and delivering our Purpose. Our employee value proposition, structured around our core values, drives our commitment in building a workplace that is highly performance driven. Alignment of our EVP with company's strategy ensures that we attract and retain high performing talent, fostering excellence throughout our organization. Our EVP is lived and felt by all employees via various programs and initiatives that run throughout the year, contextual to the focus of the organization during a specific period. We build on the overarching principle of not just attracting but developing and nurturing careers of our people such that they find the culture that really enables them to learn and thrive. Some of these initiatives are specifically tailored around creating a sense of pride and to embed a high performing value-driven culture throughout the organization:

- **Quarterly Open-house and Webinars:** The main objective of these sessions is to encourage a direct communication link between our top management and employees, to align on our purpose, values, strategic goals and key initiatives as well as address organizational challenges. It is a platform for interactive dialogue to drive the company's vision forward.
- **HR and Leadership Connect Sessions:** The main aim of these sessions is to facilitate direct engagement between HR, the leadership team and our employees, to listen, empathize and understand the key positive and concerning areas and build actionable plans to resolve the grievances. It's a platform for collaborative two-way communication to enhance workplace improvement and workforce development.
- **Diversity Mentoring:** The diversity mentoring program aims to strengthen the diversity of our leadership pipeline and improve gender balance at management levels in Commercial organizations in line with Signify diversity commitments. Diversity mentoring program enriches participants by assigning them a mentor who in turn helps in broadening their perspectives, promoting knowledge exchange, fostering more inclusive and collaborative environment, and empowering them in their respective roles. This program runs for a span of 9-12 months of mentorship journey. An extension of this program is Global Mentoring, which fosters cross-geographical collaboration and enhances cross-cultural understanding, by aligning nominated employees with cluster-leaders and country-heads across different regions globally.
- **DE&I Week:** At Signify, we focus on leveraging 'DEI' as a competitive edge. While we include different categories of diversity across Signify geographies, in India, the current focus is on Gender Diversity, Generational Diversity as well as Persons with Disability.

As we prioritize diversity hiring, we demonstrate a commitment to inclusivity and fairness. This builds trust among our employees, as they see that Signify values different perspectives and backgrounds.

- **Employee Sensitization:** We coach and sensitize our leaders, managers and employees by doing various trainings programs on topics like unconscious bias, enhancing workplace diversity, how to lead with inclusion and much more. The HR Team in India has conducted the series of "Leading with Inclusion" trainings – to help sensitize our workforce of various diversities – and the merits of having them at the workplace, The series also focuses on Business Case of DEI – where we show evidence how having Diverse perspectives at workplace help us grow as a company.

The training has been attended by all people managers and more than 80% of the individual contributors (ICs) in our workforce in India. In addition, we also run other trainings like Prevention of Sexual Harassment at Workplace, Security Essentials, Code of Conduct etc. to reiterate our focus on an Inclusive, Safe and Supportive work environment for all our employees.

People managers undergo special training modules like iEdge, iEdge which focuses on training them to better manage their teams and help us create a respectful and performance-based culture at individual team levels as well.

Learning & Talent Development

Our learning and development program is dedicated to fostering a culture of continuous growth and skill enhancement. By providing diverse training opportunities, we empower our employees to achieve personal and professional excellence. This commitment to development equips our employees with knowledge and capabilities necessary to excel in their roles. We have curated certain initiatives to empower our employees with specific skills and help them grow in the workplace.

- **Learning Week:** In our pursuit towards continuous learning, we dedicate one hour on monthly basis to Learning and Career development, wherein we invite Signify SMEs internally to talk and engage with our employees on new-edge technologies, latest trends and paradigm shifts in economic environment and counseling sessions on professional development.
- **Saksham:** Launched in 2024, Saksham program is designed to groom key talent for **First-time people manager roles**. This 3-month comprehensive journey is focused on three pillars: Managing Self, Managing Business and Managing Others. It combines diverse array of learning methods including classroom training, live projects, mentoring, online learning and career coaching to ensure holistic development and readiness for managerial responsibilities.
- **Accelerated Leadership Program:** This program has been designed to nurture outstanding talent within our company at **mid-management** levels, who will help shape and drive our future. This tailor-made program is focused on developing key skills and competencies that are critical for an individual's career growth. It is a comprehensive 3-month long journey featuring several challenging and enriching development modules. The program features a rich blend of hands-on experiences, classroom training and cross functional learning.
- iEdge- iEDGE is a transformational gamified and simulation driven leadership development program for entire managerial talent in Signify India and Signify Globally driven by the team comprising our India HR Leadership, Business partnership and India Learning team as the key players. This focuses on building the ability to Manage Self, manage teams and Manage work in a VUCA world we are operating in today. This program is powered by Knolskape, a top 20 gamified learning company. The Signify India HR and Learning teams have partnered with Knolskape to cover 100% of the manager population in India in 2024.
- **Learning Academy –** An initiative in our innovation center at Bangalore, this program aims to build competencies for early career talents by using internal learning resources. For Campus hires, we have designed 36+ trainings for a duration of 3 months which includes technical, functional trainings and soft skills. A talented batch of 44 interns completed the Learning Academy courses in 2024.
- **LaunchPad:** LaunchPad is a refresher induction program for **new joiners in Sales** channel. The objective of this program is to provide an overview of all our product categories and ways of working to the new joiners, who are 2-3 months old in the organization. This is an opportunity for the new joiners to witness our R&D facilities and connect with stakeholders from the Head Office.
- **Ascent:** Ascent is an 8-week long comprehensive and structured training program designed for new employees in commercial organization, to equip them with the necessary skills, knowledge, and tools to enhance productivity and become more successful in their roles. The program is divided into different phases, including introduction and orientation phase, technical training, and job specific training. By the end of this program, employees have a clear understanding of their roles and responsibilities, as well as the organization's mission, vision, and values.

- **Bright Finance:** It is a talent program for Finance professionals focused on development and career growth. The aim of this initiative is to recruit and develop a spectrum of early career talented resources and provide them an opportunity to develop the skills, not just in finance domain, but also with regards to their regional entities and business requirements. This program consists of 3 pillars: Monthly Masterclass, Hands-on projects, and Mentoring.

All the above engagements coupled with our flexible and supportive culture, developmental and growth opportunities that we provide to our employees resulted in the company being recognized as a Great Place to Work by GPTW® Institute for the period 2025-26.

Talent Acquisition

In our journey to attract, engage, retain and grow the right talent for Signify, we actively work on building Signify's brand to make it an 'Employer of Choice'.

As part of our Brighter Lives, Better World sustainability program, we set an ambition in 2020 to double the number of women in leadership positions from 17% to 34% by the end of 2025. And in 2021, we signed the United Nations (UN) Women Empowerment Principles, which underpins this commitment. We are making progress: the percentage of women in leadership positions has significantly increased from 17% in 2019 to 28% in 2024.

In line with our global strategic priority of leveraging DEI as a competitive edge, we amplified our efforts towards diversity hiring focusing on both gender and age diversity. We drove focused initiatives to ensure our woman employees are supported, engaged and developed thereby resulting in improved women employee footprint. We have diversity of more than 40% in our technology (R&D and Digital) teams, and over 40% in enabling functions (Finance, HR, Supply Chain, Procurement). Our campus programs – across Commercial and Technology teams contributed towards adding Gen Z talent to Signify.

In our Innovation Centre at Bangalore, we continued with "Campus Verve Program" to hire interns from engineering colleges. Also, we hired 74 Engineer Trainee in 2025 and converted 93% in R&D. In our Innovation Centre at Noida, we onboarded a total of 6 Engineer Trainees and in our Cooper Lighting Solution's Innovation Centre at Pune, we hired 10 Engineer Trainees. In the non-technical domain, we had 6 joiners in Business Leadership Program and another 13 in Sales Trainee Program. We have also hired 15 summer trainees from top B-Schools across India, through campus placements, who underwent a 2-month internship with us in Summers of 2025.

We continuously encourage internal talent to take on diverse and bigger roles in both domestic and international markets through internal marketplace called "Opportunity Knocks". Employee Referrals continue to be the one of the top sources of hiring the right talent externally (10.5% hiring through referrals in 2024). We introduced special referral campaigns for increasing diversity referrals across various roles.

To build high brand recall amongst critical talent segments, our company actively used the social media - Signify page on LinkedIn. Our company also actively engaged with Premiere/Non-Premium B-Schools/Engineering Colleges through Campus Sparks Internship Program, Business Leadership Program, Sales Trainee Program and Postgraduate/ Graduate Engineer Trainee Program. We conducted online quizzes; leadership talks and alumni connect sessions across partner institutes.

For new members in the Signify Innovations family, we strengthened our 'First Impressions' program which enables to induct the new joiners in Lighting business environment as well as helps them transition to their new roles smoothly by providing the right tools to accelerate at our organization. Subject matter experts run various sessions during the induction program, followed by domain-specific functional trainings through online modules, and market visits / shadowing.

The Company's Vadodara Light Factory (VLF), with its focus on the environment and safety issues, National Safety week, Global EHS week and World Environment Day are celebrated every year in the plant to spread awareness on EHS importance within the factory. Water consumption monitoring and conservation program is also conducted.

VLF had replaced the conventional lighting from the shop floor area with energy efficient LED lights- give us significant energy saving along with many energy saving programs. Also implemented many programs on waste reduction and Energy conservation to protect environment.

We are reviewing Safety at many platforms like Loop meetings, Monthly Safety Review with managers, Departmental safety committee meeting etc.

VLF is also actively involved in implementing the Signify Eco-Vision program. During the year, a substantial part of the waste generated at VLF was recycled. E-waste also was disposed through Proper and authorized TSDF-Treatment, Storage and Disposal Facilities.

In VLF, Zero TRC (total recordable cases) has been reported in the previous financial year, and there is Zero case of loss of work or fatality.

ANNUAL REPORT ON CSR ACTIVITIES

[Pursuant to Section 135 of the Companies Act, 2015 read with Rule 8 of the Companies (Corporate Social Responsibility) Rules, 2014]

1. A brief outline of CSR Policy of the Company:

The Board of Directors approved Corporate Social responsibility (CSR) Policy of the Company, pursuant to the provisions of Section 135 of the Companies Act, 2013. The CSR Policy of the Company is accessible on your Company's website at https://www.signify.com/en-in/our-company/company-profile

In terms of the mandate of the CSR Committee and being a Lighting Company, the focus of the CSR programs of the Company has been to unlock the extraordinary potential of light for creating brighter lives and a better world, by providing underprivileged sections of the society access to clean & renewable solar based lighting and enhancing the employability of rural youth through skill development programs. The key pillars of our CSR program are as follows:

Har Gaon Roshan (Lighting up villages)- As part of our commitment to inclusive and sustainable rural development, the Har Gaon Roshan program was launched with the objective of providing energy-efficient and solar-powered lighting solutions to underserved villages across India. This initiative is designed to enhance the safety and well-being of rural communities—particularly women and children—after sunset, while also enabling extended hours for educational, social, and economic activities. By addressing the gap in rural lighting infrastructure, the program contributes meaningfully to local development and aligns with national goals around rural electrification and sustainability.

A total of 840 villages spanning seven states—Uttar Pradesh, Andhra Pradesh, Rajasthan, West Bengal, Tamil Nadu, Madhya Pradesh, and Arunachal Pradesh. The initiative not only addresses basic lighting needs but also adapts to the unique geographical and social contexts of each region. Under its umbrella, several focused sub-initiatives have been rolled out, including Lighting Up Forest Villages, Lighting Up Border Villages, and Lighting Up Tribal Villages. These tailored interventions have yielded significant results: forest villages have reported a notable reduction in human-wildlife conflict incidents, border communities have seen enhanced visibility and security, and tribal villages have benefited from increased access to opportunities for economic participation and access to public services.

The impact of the program has been multi-dimensional. Improved street lighting has increased safety and mobility, especially for women and children, encouraging greater participation in community life after dark. Economic activities such as evening markets, small-scale trade, and artisanal work have expanded, supporting rural livelihoods and fostering entrepreneurship. Educational outcomes have also improved, with better-lit environments enabling students to study during evening hours. Moreover, the program supports rural tourism by enhancing village infrastructure and visitor safety, thereby contributing to local economic development.

Jagmag Pathshala (Lighting up schools) – As part of our broader vision to foster equitable access to education, the Jagmag Pathshala initiative was launched to create brighter, safer, and more energy-efficient learning environments for students in rural India. The primary objective of the program is to support academic growth by improving classroom infrastructure through the installation of LED lighting and energy-efficient ceiling fans, thus ensuring a conducive atmosphere for learning in government and low-income schools.

In the current year, the initiative reached 191 schools across Assam, Karnataka, Maharashtra, Uttarakhand, West Bengal, and Bihar, significantly enhancing the day-to-day learning experience for thousands of students. Well-lit classrooms not only improve visibility and concentration but also contribute to students' comfort, attentiveness, and academic performance. Teachers have also reported improved teaching conditions and classroom engagement due to better illumination and ventilation.

In addition to lighting infrastructure, Jagmag Pathshala reflects our strong commitment to inclusive education. This year, we took a significant step forward by promoting digital education among students with visual impairments. We established 16 state-of-the-art computer laboratories in schools for the blind across India. These labs are equipped with advanced assistive technologies, including screen readers and accessible software, enabling visually impaired students to actively engage with digital learning platforms and develop computer literacy—an essential skill in today's knowledge-driven world.

Furthermore, to support academic excellence and empowerment, we awarded scholarships to 20 visually impaired girl students who demonstrated strong academic performance and potential. This initiative not only provides financial support but also encourages continued education and self-reliance among students from vulnerable backgrounds.

Khel Jyoti (Lighting up playgrounds) – As part of our commitment to nurturing grassroots talent and promoting inclusive development through sports, the Khel Jyoti initiative was launched to illuminate playgrounds and sports courts in rural and semi-urban areas. The primary objective of this program is to support the growth of rural sports by providing high-quality lighting infrastructure, thereby enabling young athletes to extend their training hours beyond daylight and unlock their full potential.

In the reporting year, we successfully illuminated 35 sports grounds and courts across Rajasthan, Himachal Pradesh, Punjab, and Delhi, covering a wide range of sporting disciplines such as Volleyball, Basketball, Kabaddi, Handball, Badminton, Table Tennis, Football, and Athletics. These upgraded facilities have created safer, more inclusive, and professionally viable environments for aspiring athletes.

The program has had a far-reaching impact on the communities it serves. By enabling extended play hours, Khel Jyoti has significantly increased access to consistent training sessions, leading to enhanced skill development and physical fitness among youth. The initiative has also encouraged higher participation of women and girls, many of whom previously faced safety and cultural barriers to practicing sports after dark. In addition, it has promoted team spirit, discipline, and leadership skills, while also fostering community engagement by transforming these grounds into vibrant evening gathering spaces.

The availability of well-lit sports infrastructure has inspired local sports clubs and schools to organize tournaments, coaching camps, and talent scouting events, further enhancing the competitive ecosystem. Several villages have reported a noticeable uptick in youth participation in state-level and national competitions, a promising sign of emerging talent from the grassroots.

Khel Jyoti received widespread appreciation and recognition, including commendation from former Union Sports Minister Shri Anurag Singh Thakur and support from the Hoshiarpur District Administration in Punjab. Their encouragement reinforces the significance of this initiative in contributing to India's sports development framework and promoting health, confidence, and opportunity among rural youth.

Through Khel Jyoti, we remain committed to lighting the path for the next generation of athletes—transforming not just playgrounds, but futures.

Swasthya Kiran (Lighting up Healthcare Centers) – In alignment with our commitment to strengthening critical infrastructure in underserved regions, the Swasthya Kiran initiative was launched to enhance the functionality and reliability of healthcare facilities in rural India. The program aims to support primary healthcare delivery by equipping health centers with energy-efficient lighting, ceiling fans, upgraded electrical infrastructure, and solar power backup solutions—particularly in regions that experience frequent power outages.

Reliable electricity and adequate lighting are foundational to the effective delivery of healthcare services. By implementing solar-powered and energy-efficient systems, Swasthya Kiran ensures that essential medical procedures, emergency treatments, and maternal and child healthcare services can be carried out without disruption, even during grid failures. These upgrades not only improve working conditions for medical staff but also provide patients with safer, cleaner, and more comfortable environments for treatment.

In the reporting year, we successfully illuminated 53 healthcare centers across Karnataka, Tripura, and Assam, significantly improving the operational capacity of these facilities. Notably, in Assam, the program supported the electrification of 23 riverine Primary Health Centers (PHCs)—facilities that serve as crucial lifelines for communities in flood-prone areas. These PHCs provide emergency medical care during seasonal floods, when access to healthcare becomes both urgent and challenging. Ensuring consistent power availability in these centers has strengthened their ability to function effectively during natural calamities, safeguarding lives when it matters most.

The impact of Swasthya Kiran extends beyond infrastructure. It contributes to increased trust and confidence in the public healthcare system, encourages higher footfall at rural health centers, and supports critical national goals related to healthcare equity, maternal and child health, and emergency preparedness.

Through this initiative, we continue to illuminate the path toward healthier rural communities by making essential healthcare services more reliable, resilient, and accessible—one health center at a time.

In addition to the above projects, Signify initiated a Special Flood Relief Support Initiative in response to the severe floods that impacted Tripura in August 2024 due to heavy and continuous rainfall. Understanding the immediate need for dependable lighting in the aftermath of the disaster, we distributed sustainable lighting solutions to over 66,000 affected families. These lighting kits played a critical role in supporting families during their rehabilitation by enabling essential household activities, ensuring children could continue their studies during evening hours, and improving overall nighttime safety. This timely intervention underscores our commitment to supporting disaster-affected communities and demonstrates the meaningful impact that light can bring in restoring stability, safety, and hope during times of crisis.

A. ENERGY CONSERVATION

The following measures were implemented during the Financial Year ending on 31st March, 2025:

a) 1. Steps taken or impact on conservation of energy.

a) Demand for GLS and VTL was significantly reduced. We interconnected the VTL process cooling tower with the engine room cooling tower, resulting in an electrical energy saving of approximately 80 units/day.

b) With the reduction in conventional business demand, the maximum demand (MD) for electricity was reduced from 2900 KVA to 1900 KVA, resulting in a monthly saving of approximately INR 350,000.

c) Conventional lighting in shop floors and offices was replaced with LED lighting (Phase-3 of the action plan), resulting in a saving of approximately 110 units/day.

d) Continuous efforts were made to reduce compressed air consumption at VTL, GLS, and the new LED (Consumer, Electronics Manufacturing Source, Professional) Manufacturing Plant.

e) The Glass operations were stopped, resulting in a reduction of electricity consumption by approximately 9000 KWH per day.

f) The deployment of the "No Production No Energy" program was carried out across all production lines with a focus on creating awareness and implementing machine interlocking.

g) The productivity of 1 Nos VTL lines has been enhanced by increasing their speed from 1630 lamps per hour to 1780 lamps per hour.

h) Energy conservation initiatives drove the Energy Hoshin project in smart automation and low-cost automation, resulting in identified savings of approximately INR 1.9 million per annum.

b) The Capital Investment on energy conservation on equipment's

The Company has invested ₹ 2.7 million during this year on Capex for energy saving equipment's & energy efficient equipment.

B. RESEARCH & DEVELOPMENT (R & D)

Your Company continues to derive the sustainable benefits from the strong foundation and Long tradition of Research and development. During the year the Company continued to focus on the development of its products to preserve and strengthen its competitive position in various lighting related products. Your Company believes that process development and import substitution are of paramount importance and to put all its efforts to establish the same. FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

To the Members of Signify Innovations India Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Signify Innovations India Limited ("the Company"), which comprise the Balance sheet as at March 31 2025, the Statement of Profit and Loss, including the statement of Other Comprehensive Loss, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit including other comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive loss, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except that the Company does not have server physically located in India for the daily backup of the books of account and other books and papers maintained in electronic mode and for the matters stated in the paragraph (i)vi below on reporting under Rule 11(g);

   (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Loss, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

   (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

   (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act;

   (f) With respect to the adequacy of the internal financial controls with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in “Annexure 2” to this report;

   (g) In our opinion, the managerial remuneration for the year ended March 31, 2025 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;

   (h) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in the sub-clause (b) above on reporting under Section 143(3)(b) and paragraph 2(i)vi below on reporting under Rule 11(g);

   (i) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer note 38 to the financial statements;

      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

      iv. a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 43(v) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

      b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 43(vi) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.

The interim dividend declared and paid by the Company during the year and until the date of this audit report is in accordance with section 123 of the Act.

As stated in note xx to the financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year except that, audit trail feature is not enabled for certain transactions at application level and at database level, as described in note 46 to the financial statement. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of accounting software where audit trail has been enabled.

Additionally, the audit trail of prior years has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in the respective years.

ANNEXURE 1 REFERRED TO IN PARAGRAPH 1 UNDER "REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS" OF OUR REPORT OF EVEN DATE

Re: Signify Innovations India Limited ('the Company')

In terms of the information and explanations sought by us and given by the company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(i) (a) (B) The Company has maintained proper records showing full particulars of intangibles assets.

(i) (b) All Property, Plant and Equipment were physically verified by the management in the previous year in accordance with a planned programme of verifying them once in three years which is reasonable having regard to the size of the Company and the nature of assets.

(i) (c) The title deeds of immovable properties (other than properties where the Company is the lessee, and the lease agreements are duly executed in favour of the lessee) disclosed in note 3 to the financial statements included in property, plant and equipment are held in the name of the Company. Certain title deeds of the immovable Properties, in the nature of freehold land and buildings, as indicated in the below mentioned cases which were acquired pursuant to a Scheme of Arrangement approved by Hon'ble High Court of Calcutta Order dated January 27, 2016, are not individually held in the name of the Company, however the deed of merger has been registered by the Company.

Description of Property	Gross carrying value (₹ In million)	Held in name of	Whether promoter, director or their relative or employee	Period held – indicate range, where appropriate	Reason for not being held in the name of Company
Land	121	Philips India Limited	-	-	The Company has acquired these assets, pursuant to the scheme of arrangement for Demerger amongst Philips India Limited ("Demerged Company") and Signify Innovations India Limited ("Resulting Company"). The Company is in the process of getting its name mutated in city municipal records.

(i) (d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2025.

(i) (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) Physical verification of inventory has been conducted at reasonable intervals during the year by management. In our opinion, the coverage and procedure of such verification by the management is appropriate. There were no discrepancies of 10% or more noticed, in the aggregate for each class of inventory.

(ii) (b) As disclosed in note 11 to the financial statements, the Company has been sanctioned working capital limits in excess of ₹ five crores in aggregate from banks during the year on the basis of security of current assets of the Company. As represented to us by the Company, since there is no fund based working capital limits sanctioned, bank has exempted the Company to file the quarterly returns/ statements to them. Accordingly, the requirement to report on clause 3(ii)(b) of the Order is not applicable to the Company.

(iii) (a) During the year the Company has not provided loans, advances in the nature of loans, stood guarantee and provided security to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(a) of the Order is not applicable to the Company.

(iii) (b) During the year the Company has not made investments, provided guarantees, provided security and granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(b) of the Order is not applicable to the Company.

(iii) (c) The Company has not granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(c) of the Order is not applicable to the Company.

(iii) (d) The Company has not granted loans or advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(d) of the Order is not applicable to the Company.

(iii) (e) There were no loans or advance in the nature of loan granted to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(e) of the Order is not applicable to the Company.

(iii) (f) The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.

(iv) There are no loans, investments, guarantees, and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable and accordingly, the requirement to report on clause 3(iv) of the Order is not applicable to the Company.

(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

(vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture or service of electric lamps and fluorescent tubes, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.

(vii) (a) Undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us and based on audit procedures performed by us, undisputed dues in respect of provident fund were outstanding, at the year end, for a period of more than six months from the date they became payable, are as follows:

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENT OF SIGNIFY INNOVATIONS INDIA LIMITED)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Signify Innovations India Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with Reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

(a) Basis of preparation and measurement

The Ind AS financial statements of the Company have been prepared in accordance with Indian Accounting standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable.

The financial statements have been prepared on a historical cost basis except the following items, which are measured on fair value basis on each reporting date:

- Financial assets and liabilities that is measured at fair value (Refer Note 36)
- Defined benefit liability/(assets): fair value of plan assets less present value of defined benefit obligation (Refer Note 35)

The financial statements are presented in Indian Rupees ('INR') in millions and all amounts are rounded to nearest million, except number of shares, face value of share, earning/ (loss) per share or wherever otherwise indicated.

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025,

MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

These financial statements were approved for issue by the Board of Directors on 04 July 2025.

(b) Significant accounting judgments, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements.

Leases

The Company has taken various commercial properties on leases. Classification of leases under finance lease or operating lease requires judgment with regard to the estimated economic life and estimated cost of the asset. The Company has analyzed each lease contract on a case by case basis to classify the arrangement as an operating lease or a finance lease.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Share-based payment payments

The cost of cash-settled transactions is measured initially at fair value at the grant date using a "Black-Scholes" option pricing model, further details of which are given in Note 37. This fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The liability is remeasured to fair value at each reporting date up to, and including the settlement date, with changes in fair value recognized in employee benefits expense.

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

Gratuity benefit

The cost of defined benefit plan and the present value obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, management considers the interest rates of long-term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Future salary increases are based on expected future inflation rates for the respective countries. Further details about the assumptions used, including a sensitivity analysis, are given in Note 35.

Useful life of Property, plant and equipment

For the useful life of Property, plant and equipment's refer Note 2(d) on Property, plant and equipment.

Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. (Refer Note 36)

Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Impairment of non-Financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An assets recoverable amount is the higher of an asset's or CGU'S fair value less cost of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

(c) Classification of Assets and Liabilities as Current and Non-Current

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle.
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and deferred tax liabilities are classified as non- current assets and liabilities. The operating cycle is the time between the acquisition of the assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(d) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of assets comprises of purchase price and directly attributable cost of bringing the assets to working condition for its intended use including borrowing cost and incidental expenditure during construction incurred up to the date when the assets are ready to use. Capital work in progress includes cost of assets at sites, construction expenditure and interest on the funds deployed.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as a separate item (major components) of property, plant and equipment. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred.

Gains or losses arising from derecognition of Property, Plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Subsequent measurement

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

Depreciation

Depreciation on property, plant and equipment's (except dies and tools and leasehold improvement) is calculated on Straight Line Method using the rates arrived at based on the estimated useful lives given in Schedule II of the Companies Act.

Dies and tools are depreciated over the estimated useful lives of 5 years, on the basis of technical assessment made by the management.

Leasehold improvements are depreciated over the shorter of lease term and their useful life. Freehold land is not depreciated.

Management believes that the useful life as given above best represent the period over which the assets are likely to be used.

Depreciation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively.

(e) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and embedded derivatives in the host contract.

Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

Subsequent measurement for purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortized cost

A financial asset is measured at amortized cost only if both of the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit or loss. The losses arising from impairment are recognized in the statement of profit or loss. This category generally applies to trade and other receivables.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate ('EIR') method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

All other Financial Instruments are classified as measured at FVTPL.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognize the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in OCI is recognized in profit or loss.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a) Financial assets that are debt instruments, and are measured at amortized cost e.g., deposits, trade receivables and bank balance

b) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18 (referred to as 'contractual revenue receivables')

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- **Trade receivables**

  The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

  For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. The credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk of customer has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

  Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

  ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, the Company considers:

  All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

  As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

  ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

  Financial assets measured as at amortized cost and contractual revenue receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

  For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities measured at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss..

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Reclassification of financial assets

The company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The company's senior management determines change in the business model as a result of external or internal changes which are significant to the company's operations. Such changes are evident to external parties. A change in the business model occurs when the company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

(f) Inventories

Raw materials (including packing material), stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- **Raw materials (including packing material) and stores and spares:** cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on First In First Out method basis.
- **Finished goods and work in progress:** ccost includes cost of direct materials and labor and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost of finished goods includes excise duty. Cost is determined on First In First Out method basis.
- **Traded goods:** cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on First In First Out method basis.

  Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(g) Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

- **Replacement warranty:** The Company periodically assesses and provides for the estimated liability on warranty given on sale of its products based on past performance of such products.
- **Environmental restoration:** The Company periodically assess the liability for expenses to be incurred on restoration of environmental damage caused by carrying out of production activity in company manufacturing plants.
- **Extended warranty:** For certain products, customer has the option to purchase an extension of warranty. Accordingly, a provision for deferral of revenue is made at the time of sale of goods and recognition of revenue. Revenue recognition in future period occurs on straight-line basis over extended warranty contract period.
- **E-waste:**

  Provision for E-Waste is recognized when the liability in respect of products sold to customer is established in accordance with E-waste Management Rules, 2016 as notified by Government of India. Initial recognition is based on liability computed based on Extended Producer Responsibility as promulgated in said Rules including cost to comply the said regulation. The Company has assessed the liability to arise on year to year basis.

(h) Contingent liability:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

(i) Revenue from contract with customer

The Company manufactures, trades and sells a range of lighting and allied products and lighting system solution. Revenue from sale of these products is recognized at a point in time when control of the product is transferred to customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods.

Revenue Recognition principal adopted by Company for its contracts with customers are given below:

➢ **Sale of goods**

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods.

The Company considers, whether there are other promises in the contract those are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Company considers the effect of variable consideration, warranty obligation, significant financing components, schemes (if any): -

(i) Variable consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Certain contracts with customers provide a right of return, trade discounts or volume rebates. Currently, the Company recognizes revenue from the sale of goods measured at the expected value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. If revenue cannot be reliably measured, the Company defers revenue recognition until the uncertainty is resolved. Such provisions give rise to variable consideration and are estimated at contract inception and updated thereafter.

(ii) Warranty obligations

The Company generally provides for warranties for general repairs that existed at the time of sale, as required by contract. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets. For certain products, customer has the option to purchase an extension of warranty. Accordingly, a deferral of revenue is made at the time of sale of goods and recognition of revenue. Revenue recognition in future period occurs on straight-line basis over extended warranty contract period. Therefore, accounted for as separate performance obligations to which the Company allocates a portion of the transaction price..

(iii) Significant Financing Components

In respect of short-term advances from its customers, using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be within normal operating cycle.

In respect of long-term contracts, the transaction price for such contracts is discounted, using the rate that would be reflected in a separate financing transaction between the Company and its customers at contract inception, to take into consideration the significant financing component.

(iv) Schemes

The Company operates several sales incentive programmes wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme programme such as credit notes, tours, gifts etc. Revenue from contract with customer is presented net of scheme.

➢ **Sale of services**

The Company recognizes revenue from sales of services over time, because the customer simultaneously receives and consumes the benefits provided by the Company. Revenue from services related activities is recognized as and when services are rendered and on the basis of contractual terms with the parties.

➢ **Contract balances**

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional. A receivable represents the Company's right to an amount of consideration that is unconditional.

Trade receivables represent the Company’s right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

➢ **Interest income**

Interest income is recognized using the EIR method. The EIR is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial instrument or a shorter period, where appropriate to the net carrying amount of the financial asset. The EIR is computed basis the expected cash flows by considering all the contractual terms of the financial instrument. The calculation includes all fees, transaction costs, and all other premiums or discounts paid or received between parties to the contract that are an integral part of the effective interest rate.

(j) Government grants and subsidies

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments.

(k) Employee benefits

Gratuity

The Employee’s Gratuity Fund Scheme, which is defined benefit plan, is managed by employee trust maintained with Life Insurance Corporation. The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, expected rate of return on assets, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date

In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on mortality rates from Indian Assures Lives Mortality 2006-08. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Further details about gratuity obligations are given in note 35.

Provident fund

Retirement benefit in the form of provident fund is a defined contribution plan. The Company recognizes contribution payable to the provident fund scheme as an expenditure when an employee renders the related services. Provident fund is deposited with the Employees Provident Fund organisation.

Compensated Absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to statement of Profit and Loss in the period in which they occur. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Long term incentive plan

Signify Innovations India Limited group company (Signify N.V.) introduced the Long-term Incentive Plan (LTI Plan) during the financial year ended 31 March 2018. Under the Signify LTI Plan, which is equity settled, eligible employees are granted both conditional shares and performance shares. Vesting of performance shares is conditional on the achievement of performance conditions measured over a period of three years. Also, vesting is conditional to the grantee still being employed with Signify at the vesting date. In addition to shares awarded under the LTI Plan, Signify may in individual cases, such as in the hiring process of members of senior-management, also grant restricted shares.

During the vesting period, the costs of the LTI plan is calculated and accounted by the Company as an employee benefit expense with corresponding increase in payable to the holding company in accordance with the recognition and measurement principles as prescribed in Ind AS 102 Share Based Payments.

The total expense is recognized over the vesting period, which is the period over which all the specified vesting conditions are to be satisfied.

Employee stock purchase plan (ESPP)

ESPP is a company-run program in which company contributes an additional 15% on top of employee's voluntary share purchase contribution. Employees pay into the plan through payroll deductions, which are used to buy shares of the Group company (Signify N.V.), which is listed on the Euronext Amsterdam Stock Exchange. The Company uses the funds to purchase shares on behalf of the participating employees. The Company contribution is recognized as an expense in the month of contribution.

(l) Foreign currency transactions

The Company's financial statements are presented using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in INR, which is the company's functional and presentation currency, being the currency in which the Company's share capital is denominated.

Derivative

The Company enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in other income/ expense.

Transactions and balances

Foreign currency transactions are recorded, on initial recognition in the functional currency, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in statement of profit or loss.

(m) Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(n) Income tax

Current income tax

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside statement of profit or loss is recognized outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside statement of profit or loss is recognized outside statement of profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(o) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses are recognized in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

(p) Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company’s other components, and for which discrete financial information is available.

Results of the operating segments are reviewed regularly by the Company's Chief Executive Officer (CEO) who has been identified as the Chief Operating Decision Maker ('CODM'), to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ('CODM').

The Company is operating under only one segment i.e. Lighting Segment. Though the Company has various range of products, all of them have been considered into lighting segment based upon their final use by end consumer.

(q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term money market deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(r) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

Where the Company is lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use Assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

- Office / Buildings: 3 to 9 years
- Motor Vehicles: 3 to 5 years

The right-of-use assets are also subject to impairment.

Lease Liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset

(s) Earnings Per Share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(t) Business Combination and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Company elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognized at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses if any. The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

(u) Exceptional item.

Items of income or expense of non-routine are presented separately when their nature and amount of such significance and is relevant to an understanding of the entity's financial performance.

(v) Non-current assets held for sale.

The Company classifies non-current assets and disposal Companys as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

Non-current assets and disposal Companys classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal Company), excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal Company is available for immediate sale in its present condition.

The criteria for held for sale classification is regarded met only when the assets or disposal Company is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal Companys), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset or disposal Company to be highly probable when:

- ➢ The appropriate level of management is committed to a plan to sell the asset (or disposal Company),
- ➢ An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- ➢ The asset (or disposal Company) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- ➢ The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- ➢ Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Property, plant and equipment and intangible are not depreciated, or amortised assets once classified as held for sale.

Assets and liabilities classified as held for sale are presented separately from other items in the balance sheet.

Additional disclosures are provided in Note 47. All other notes to the financial statements mainly include amounts for continuing operations, unless otherwise mentioned.

On transition to Ind AS (i.e. 1 April 2015), the Company has elected to continue with the carrying value of all Property, plant and equipment measured as per the previous GAAP and use that carrying value as the deemed cost of Property, plant and equipment.

* Land measuring 107,692 sq meter amounting to Rs 4 Mn situated at Vadodara have been transferred and vested in the name of the company pursuant to the scheme of arrangement of demerger. The Company is in the process of getting its name mutated in city municipal records for 20,172 sq meter out of 107,692 sq meter.

** During the year ended 31 March 2020, the Company had acquired business of Cooper India, a division of Eaton on slump sale basis at an aggregate consideration of ₹ 939 million against which net assets acquired was of ₹ Nil and accordingly excess of purchase consideration over net assets acquired on fair value had been recognized as 'Intangibles assets' in the financial statements. The said intangibles primarily relate to customer contract, customer relationships and others* and are not separately identifiable in terms of Ind AS 103. The company has considered Cooper India a cash generating unit for the purpose of evaluation of impairment testing on acquired intangible assets.The company performed its annual impairment test for years ended 31 March 2025 and 31 March 2024. The company considers the relationship between its head count of employees and markup agreed for the services, when reviewing for indicators of impairment. As at reporting date, there were no indicators for impairment of intangible assets considering the below set of key assumptions.

* Others refer to the technical know how, assembled workforce, business processess & business generating potential.

Key assumptions used in previous year for value in use calculations

The calculation of value in use is most sensitive to the following assumptions:

a) Employee head count

b) Discount rates

c) Growth rates used to extrapolate cash flows beyond the forecast period

a) Employee head count

Headcount additions for FY 2024- 2025 has been considered as per the approved business plan by the management. Increase in head count from next year onwards has been considered based on future growth road map considering the current business scenarios. Decreased operations of the CGU can lead to a decline in the employee head count. A decrease in the head count by 5% would not result in any impairment.

b) Discount rates

Discount rates represent the current market assessment of the risks specific to CGU, taking into consideration the time value of money and risks of underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the company and its operating segments and is derived from its weighted average cost of capital (WACC). The WACC takes into account equity. The cost of equity is derived from the expected return on investment by the company's investors. CGU specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data. Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate. A rise in the pre-tax discount rate to 17.0% (i.e., +1%) would not result to any impairment.

c) Growth rates used to extrapolate cash flows beyond the forecast period

The Growth rate at terminal value is considered as 5% basis management estimate of future cash flow considering businees outlook and agreement for services. A decline in 1% of growth rate would not result to any impairment.

Performance obligations

Sale of products:

Performance obligation in respect of sale of goods is satisfied at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods.

Installation service:

The performance obligation in respect to of installation services is satisfied upon completion of installation and acceptance of customer.

Warranty obligation:

For certain products, customer has the option to purchase an extension of warranty. Accordingly, a provision for deferral of revenue is made at the time of sale of goods and recognition of revenue. Revenue recognition in future period occurs on straight-line basis over extended warranty contract period. Therefore, accounted for as separate performance obligations to which the Company allocates a portion of the transaction price.

Schemes:

The Company operates several sales incentive programmes wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme programme such as credit notes. Revenue from contract with customer is presented net of scheme.

Significant financing component:

In respect of long-term contracts, the transaction price for such contracts is discounted, using the rate that would be reflected in a separate financing transaction between the Company and its customers at contract inception, to take into consideration the significant financing component.

Significant judgments:

Significant judgment in determining the timing of satisfaction of performance obligation

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time.

Critical judgment in determining the transaction price

Judgement is also required to determine the transaction price for the contract. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.

For this, Judgment is required in determining the probability and level of discounts that will be granted. The estimate is updated throughout the term of the contract.

34. Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

In accordance with Ind AS 108– Operating Segment, the operating segments used to present segment information are identified on the basis of information reviewed by the Company's management to allocate resources to the segments and assess their performance. An operating segment is a component of the Company that engages in business activities from which it earns revenues and incurs expenses, including revenues and expenses that relate to transactions with any of the Company's other components.

Results of the operating segments are reviewed regularly by the Company's Chief Executive Officer (CEO) who has been identified as the Chief Operating Decision Maker ('CODM'), to make decisions about resources to be allocated

Notes to the financial statements for the year ended 31 March 2025

to the segment and assess its performance and for which discrete financial information is available.

The Company is primarily engaged in manufacturing, trading and distribution of all kinds of lighting and allied products and lighting system solution. Given that the economic environment in which the Company operates is significantly similar and not subject to materially different risks and rewards and all of the activities whether on a stand alone basis or in aggregate do not exceed the quantitative threshold mentioned in Ind AS 108 (Operating Segments), the Company has identified and operates as a single reportable operating segment.

Assumptions regarding future mortality have been based on published statistics and mortality tables.

E. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

(₹ in million)

	31 March 2025		31 March 2024	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	533	604	472	535
Expected rate of future salary increase (1% movement)	601	535	533	473

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

F. The following payments are expected contributions to the defined benefit plan in future years:

(₹ in million)

	31 March 2025	31 March 2024
Within the next 12 months (next annual reporting period)	73	73
Between 2 and 5 years	268	230
Beyond 5 years	229	204
	570	**507**

(iii) Other long-term employee benefits:

During the year ended 31 March 2025, the Company has incurred an expense on compensated absences amounting to ₹ 63 million (31 March 2024 ₹ 65 million). The Company determines the expense for compensated absences basis the actuarial valuation of plan assets and the present value of the obligation, using the Projected Unit Credit Method.

Notes to the financial statements for the year ended 31 March 2025

36. Financial instruments – Fair values and risk management

I. Fair value measurements

A. The carrying amounts and fair values of financial instruments by class are as follows:

(₹ in million)

	As at 31 March 2025		As at 31 March 2024	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets at fair value through profit and loss				
Investments	10	10	11	11
Financial assets at amortised cost				
Other non-current financial assets	142	142	897	897
Trade receivables	2,681	2,681	2,424	2,424
Cash and Cash equivalents	3,623	3,623	4,584	4,584
Other bank balance	298	298	260	260
Other current financial assets	674	674	489	489
	7,428	**7,428**	**8,665**	**8,665**
Financial liabilities				
Lease Liabilities (current and non-current)	1,244	1,244	1,289	1,289
Trade Payables	6,456	6,456	6,206	6,206
Other current financial liabilities	519	519	494	494
	8,219	**8,219**	**7,989**	**7,989**

The carrying amounts of trade receivables, cash and cash equivalents, other current financial assets, trade payables, other current financial liabilities and other non-current financial liabilities are considered to be the same as their fair values.

B. Fair value hierarchy

The fair value of financial instruments as referred to in note (A) above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market;

Level 2: Directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data.

(i) For assets and liabilities which are measured at fair value as at Balance Sheet date, the classification of fair value calculations by category is summarised below:

(₹ in million)

	As at 31 March 2025			
	Level 1	Level 2	Level 3	Total
Assets at fair value				
Investments measured at fair value	10	-	-	10
	As at 31 March 2024			
Assets at fair value				
Investments measured at fair value	11	-	-	11

There are no transfers between level 1 and level 2 during the year ended 31 March 2025 and 31 March 2024.

Notes to the financial statements for the year ended 31 March 2025

(ii) Financial Instrument measured at amortised Cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the Financial Statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

II. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk;
- liquidity risk; and
- market risk

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the Risk framework for developing and monitoring the Company's risk management policies.

The Company's risk management framework is established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management framework is reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees how management monitors compliance with the Company's risk and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes periodic reviews of company processes and risks, the results of which are reported to the Audit Committee.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

The carrying amount of financial assets represents the maximum credit exposure.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

An impairment analysis is performed on an individual basis for major customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company evaluates the concentration of risk with respect to trade receivables as low, the trade receivables are located in several jurisdictions and operate in largely independent markets.

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. Basis the evaluation, the management has determined that there are credit impairment loss on the trade and other receivables.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in the operating companies of the Company in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Company uses derivatives (forward contracts) to manage market risks. All such transactions are carried out within the guidelines set by the Risk Management Committee.

Notes to the financial statements for the year ended 31 March 2025

Currency risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, and EUR. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows:

Capital management

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity.

37. Employees' Share-based Payments:

Signify Long-term Incentive Plan

During the year 2017-18 Signify introduced the Long-term Incentive Plan (LTI Plan). Under the Signify LTI Plan, which is equity settled, eligible employees are granted both conditional shares and performance shares of the Group company (Signify N.V.). Conditional shares have a three-year cliff vesting period and will vest if a grantee is still employed with Signify at the vesting date.

Vesting of performance shares is conditional on the achievement of performance conditions measured over a period of three years. The performance condition measurement is based on four measures, Relative Total Shareholder Return (TSR) (25% of the shares), Free Cash Flow (FCF) (25% of the shares) , return on capital employed (25% of the shares) Sustainability (25% of the shares). In addition, vesting is conditional to the grantee still being employed with Signify at the vesting date.

For the Board of Management and certain members of senior management, the LTI Plan consists of performance shares only. Shares are conditionally granted annually.

In addition to shares awarded under the Signify LTI Plan, Signify may in individual cases, such as in the hiring process of members of senior-management, also grant restricted shares. Restricted shares have either three-year cliff vesting period or vest gradually over the vesting period of one, two or three years.

Under the terms of the employee stock purchase plan (ESPP) established by Signify in the FY 2017-18 , employees are eligible to purchase a limited number of Signify shares at discounted prices through payroll withholdings.

Notes to the financial statements for the year ended 31 March 2025

Signify performance shares

TSR performance measurement is a market performance condition.

The fair value of shares granted under TSR is measured based on Monte Carlo simulation. The closing share price at grant date is adjusted for the present value of expected dividends during the vesting period, as participants are not compensated for Signify dividend payouts. Monte Carlo simulation takes into account market conditions expected to impact relative Total Shareholders' Return performance in relation to selected peers.

Assumptions used in Monte Carlo Simulation for valuation in %

	FY 2024-25
Risk-free interest rate	2.7%
Expected share price volatility	36%

The assumptions were used for these calculations only and do not necessarily represent an indication of Signify management's expectation of future developments for other purposes. Historic volatility was measured over the same timeframe as the simulation period (weighted average 2.6 years).

The amount calculated as an expense for TSR shares is not adjusted for actual performance.

FCF and Sustainability measurements are non-market performance conditions. Fair value of shares granted under FCF and Sustainability conditions equals the closing share price on the grant date, again adjusted for the present value of expected dividends during the vesting period.

The amount calculated as an expense for FCF and Sustainability shares is adjusted for actual performance.

A summary of Signify performance shares movements as of 31 March, 2025, is presented below:

Particulars	Performance Shares	Weighted average grant-date fair value
Balance as of 1 April 2024	**24,242**	**29.86**
