INDEPENDENT AUDITOR'S REPORT

To the Members of LAVA International Limited

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of LAVA International Limited (hereinafter referred to as "the Holding Company"), its subsidiaries, trust (the Holding Company, its subsidiaries and trust together referred to as "the Group"), its associates and joint ventures, comprising of the consolidated Balance Sheet as at March 31, 2017, the consolidated Statement of Profit and Loss including other comprehensive income, the consolidated Cash Flow Statement, the consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its Associate and Joint Venture in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associate and joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its associate and joint venture and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements

and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, associate and joint venture, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group, its associate and joint venture as at March 31, 2017, their consolidated profit including other comprehensive income, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

As required by section 143 (3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, associate and joint venture, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

(a) We / the other auditors whose reports we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated Ind AS financial statements;

(b) In our opinion proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;

(c) The consolidated Balance Sheet, consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the consolidated Cash Flow Statement and consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;

(d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015, as amended;

(e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2017 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, associate company and joint venture incorporated in India, none of the directors of the Group's companies, its associate and joint venture incorporated in India is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting of the Holding Company and its subsidiary companies, associate companies and joint ventures incorporated in India, refer to our separate report in "Annexure 1" to this report;

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, associate and joint venture, as noted in the 'Other matter' paragraph:

i. The consolidated Ind AS financial statements disclose the impact of pending litigations on its consolidated financial position of the Group, its associates and joint ventures – Refer Note 31 to the consolidated Ind AS financial statements;

ii. The Group, its associate and joint venture did not have any material foreseeable losses in long-term contracts including derivative contracts during the year ended March 31, 2017;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, its subsidiaries, associate and joint venture incorporated in India during the year ended March 31, 2017.

iv. The Holding Company, subsidiaries, its associate and joint venture incorporated in India, have provided requisite disclosures in Note 34 to these consolidated Ind AS financial statements as to the holding of Specified Bank Notes on November 8, 2016 and December 30, 2016 as well as dealings in Specified Bank Notes during the period from November 8, 2016 to December 30, 2016. However, we are unable to obtain sufficient and appropriate audit evidence to report on whether the disclosures are in accordance with books of account maintained by the Holding Company and as produced to us by the Management. Further, amounts aggregating to Rs. 2.01 Million as represented to us by the management have been received by the Holding Company from transactions which are not permitted.

Other Matter

i. We did not audit the financial statements and other financial information, in respect of twenty one subsidiaries and one trust whose financial statements include total assets of Rs. 8,651.38 million and net assets of Rs. 2,325.19 million as at March 31, 2017, and total revenues of Rs. 26,472.82 million and net cash outflows of Rs. 639.82 million for the year ended on that date. These financial statements and other financial information have been audited by other auditors, whose financial statements, other financial information and auditor's reports

have been furnished to us by the management. The consolidated Ind AS financial statements also include the Group's share of net loss of Rs. 2.69 million for the year ended March 31, 2017, as considered in the consolidated financial statements, in respect of 1 associate and 1 joint venture, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished

to us by the Management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint venture and associate, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, joint venture and associate, is based solely on the reports of such other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

(b) The accompanying consolidated Ind AS financial statements include unaudited financial statements and other unaudited financial information in respect of five subsidiaries, whose financial statements and other financial information reflect total assets of Rs. 74.45million and net assets of Rs. 35.13million as at March 31, 2017, and total revenues of Rs. 103.72million and net cash inflows of Rs. 17.21million for the year ended on that date. These unaudited financial statements and other unaudited financial information have been furnished to us by the management. Our opinion, in so far as it relates amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, is based solely on such unaudited financial statement and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and other financial information are not material to the Group.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements above, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

ANNEXURE I TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF LAVA INTERNATIONAL LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of LAVA International Limited

In conjunction with our audit of the consolidated financial statements of LAVA International Limited as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of LAVA International Limited (hereinafter referred to as the "Holding Company") and its subsidiary companies, its associate company and jointly controlled company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding Company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting,

assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, associate and jointly controlled company, which are companies incorporated in India, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding Company, insofar as it relates to 5 subsidiary companies, 1 associate company and 1 jointly controlled company, which are companies incorporated in India, is based on the corresponding report of the auditors of such subsidiaries, associate and jointly controlled company incorporated in India.

Footnotes

(A) The mca taxonomy matches the figure of profit for the year & the amount shown in retained earning in other equity for current year. Amount shown in Statement of profit & Loss account is Rs. 1589.79 million whereas amount shown in retained earning in other equity is Rs.1590.61 million . Amount shown in Statement of profit & Loss account is Rs. 1589.79 million is after deducting non controlling interest-.Rs. 082 million . To reconcile both the figures non controlling interest-.Rs. 082 million has been deducted from retained earning in other equity for current year. Otherwise validation error is coming as per MCA Indas taxonomy. The amount of Rs. (082) million has been shown under other addition to reserves under retained earning heading.

	01/04/2016 to 31/03/2017
Disclosure of significant accounting policies [TextBlock]	Textual information (2) [See below]

Textual information (2)

Disclosure of significant accounting policies [Text Block]

1. Corporate information

Lava International Limited ('Company' or 'Holding Company') is engaged in trading and manufacturing of mobile phones, storage devices and other wireless telecommunication devices. The Company is a public company domiciled in India and is incorporated under the provisions of Companies Act applicable in India. The registered office of the Company is located in Rohini, Delhi and the principal place of business is Noida, Uttar Pradesh. The Company has an in-house Research and Development Center in Bangalore, India and manufacturing facilities in Noida.

The Consolidated financial statements were authorised for issue in accordance with a resolution of the directors on 26 September 2017.

2. Basis of preparation

(i) Compliance with Ind AS

The consolidated financial statements of LAVA International Limited (the 'Company' or "Holding Company") and its subsidiaries (collectively referred to as 'Group') and the Group's interest in joint ventures and associate have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

For all periods up to and including the year ended 31 March 2016, the Group has prepared its financial statements in accordance accounting standards notified under Companies (Accounting Standard) Rules, 2006 as amended, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP). These financial statements for the year ended 31 March 2017 are the first financial statements of the Group under Ind AS. Reconciliations and descriptions of the effect of the transition has been summarised in note 37.

(ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following financial assets and liabilities which have been measured at fair value :

- Investments in equity instruments of other entities (at fair value through other comprehensive income)
- Investment in mutual funds (at fair value through profit or loss)

- Derivative financial instruments (at fair value through profit or loss)

The consolidated financial statements are presented in Indian rupees (Rs) and all values are rounded to nearest millions upto two decimals, except when otherwise stated.

2.1 Summary of significant accounting policies

(a) Principles of Consolidation

The consolidated financial statements comprise the financial statements of the Company, its subsidiaries and its interest in joint ventures and associates as at 31 March 2017. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The nature of the Group's operations and principal activities are set out in Note 38.

Specifically, the Group controls an investee if and only if the Group has:

Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee) Exposure, or rights, to variable returns from its involvement with the investee, and The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

The contractual arrangement with the other vote holders of the investee Rights arising from other contractual arrangements The Group's voting rights and potential voting rights The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the

three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

- a. Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date
- b. Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- c. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests

associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

If an entity's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture (which includes any long term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the consolidated statement of profit and loss.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognises the loss as 'Share of profit of an associate and a joint venture' in the statement of profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

(c) Current Vs Non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

(d) Property, plant and equipment

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment

Property, plant and equipment including capital work in progress are stated at historical cost less accumulated depreciation and impairment losses if any. Cost directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use, as intended by the management.

Subsequent costs are capitalised on the carrying amount or recognised as a separate asset, as appropriate, only when future economic benefits associated with the item are probable to flow to the Group and cost of the item can be measured reliably. When significant parts of property, plant and equipment are required to be replaced in regular intervals, the Group recognises such parts as separate component of assets. All repair and maintenance are charged to consolidated statement of profit and loss during the reporting period in which they are incurred.

The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated statement of profit and loss on the date of disposal or retirement.

Depreciation on property, plant and equipment is provided on a straight-line basis over the estimated useful lives of the assets as below:

Assets	Useful Lives
Office Equipment	3-5 Years
Furniture and fixtures*	3-5 Years
Demonstration Fixtures*	2 Years
Vehicles*	5 Years
Computer and Components*	3 Years
Plant and Machinery*	
Jigs	1 Years
Other Plant and Machinery	5-15 Years
Electrical Installations	10 Years

*Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which the management expects to use these assets. Hence the useful lives for these assets are different from useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Leasehold Improvements are amortized over the lease term or 10 years whichever is less.

When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under the non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work in progress'.

(e) Intangible assets

On transition to Ind AS, the Group has elected to continue with the carrying value of its intangible asset recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible asset.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

The useful lives of intangible assets is assessed as finite as stated below and the assets are amortised over their useful lives and assessed for impairment whenever there is an indication that an intangible asset may be impaired.

Assets	Useful Lives
Computer software (over license period)	1-5 Years

Internally generated software

2- 5Years

The amortization period and the amortization method are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Research and development costs

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Group can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale
- Its intention to complete the asset
- Its ability to use or sell the asset
- How the asset will generate future economic benefits
- The availability of adequate resources to complete the development and to use or sell the asset
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized on a straight line basis over the period of expected future benefit from the related project, i.e., the estimated useful life of one to ten years. Amortization is recognized in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

(f) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Group as a lessee

A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease. All other leases are classified as operating leases. Payments made under operating leases are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

(g) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations. These budgets and forecast calculations generally

cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses, including impairment on inventories, are recognised in the consolidated statement of profit and loss.

(h) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

Debt instruments at amortised cost Debt instruments at fair value through other comprehensive income (FVTOCI) Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is most applicable to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (“EIR”) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is considered only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as ‘accounting mismatch’).

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss. This category is applicable to investments in mutual funds.

Debt instrument at FVTOCI

A ‘debt instrument’ is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss (P&L). Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Equity Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value. All changes in fair value including dividend are recognized in the statement of profit and loss.

De-recognition

A financial asset is de-recognised only when

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement? and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a. Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- b. Loan commitments which are not measured as at FVTPL

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month expected credit loss (ECL) is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

The group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. For the financial assets measured as at amortised cost, contractual revenue receivables, ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to statement of profit and loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

Loans and Borrowings

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the EIR. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting financial instruments

Financial asset and financial liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(i) Derivative financial instrument

The Group uses derivative financial instruments i.e., forward and futures currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss. The Group has not applied hedge accounting.

(j) Fair value Measurement

The Group measure its financial instruments such as derivative at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (Unadjusted) marked prices in the active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the management or its expert verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents

(k) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials and spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis. Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on weighted average basis. Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in first out basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(l) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized.

Sale of Goods

Revenue from sale of goods is recognized when the significant risk and rewards of ownership of the goods have been passed to the buyer which generally coincides with delivery of goods, as per the contractual terms with customers. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and is inclusive of excise duty and net of returns and allowances, trade discount, volume rebates and value added taxes. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

The Group accounts for volume discount for pricing incentives to customers as a reduction of revenue based on estimate of applicable discount/incentives.

Sale of Services

Revenue from sales of services is recognized by reference to the stage of completion, net of service tax. Stage of completion is measured by reference to services performed to date as a percentage of total services to be performed.

Interest

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the EIR. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

(m) Foreign currencies

(i) Functional and presentation currency

Items included in the financial statements of the Group are measured using the respective currency of the primary economic environment in which in which the entity in Group operates i.e. the “functional currency”. These financial statements are presented in Indian rupees, which is also the functional currency of the parent Company. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

(ii) Transactions and balances

Transactions in foreign currencies are initially recorded by the Group’s entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of the following:

- Exchange differences arising on monetary items that forms part of a reporting entity’s net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity (e.g., consolidated financial statements when the foreign operation is a subsidiary), such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

- Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

On consolidation, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

For translating income, expense and cash flows items, during the year ended 31 March 2017, the rates used were US \$ 1 = Rs. 67.19, CNY 1 = Rs. 9.97, and HKD 1 = Rs. 8.65. For translating assets and liabilities at the year-end, the rates used were US \$ 1 = Rs. 64.84, CNY 1 = Rs. 9.42 and HKD 1 = Rs. 8.35. During the year ended 31 March 2016, the rates used for translating income, expense and cash flows items were

US \$ 1 = Rs. 65.54, CNY 1 = Rs. 10.30, and HKD 1 = Rs. 8.44 and for translating assets and liabilities rates used were US \$ 1 = Rs. 66.51, CNY 1 = Rs. 10.27 and HKD 1 = Rs. 8.53. For the opening balance sheet as at 1 April 2015, the rates used for translating assets and liabilities were US \$ 1 = Rs. 62.59, CNY 1 = Rs. 10.08 and HKD 1 = Rs. 8.05.

(n) Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in India.

Current income tax relating to items recognised outside statement of profit and loss is recognised either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. Payments of tax as per Minimum Alternative Tax (MAT) is included as part of current tax in statement of profit and loss.

Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements as at reporting date. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

· When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

· In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside statement of profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

MAT is applicable to the Group. Credit of MAT is recognised as deferred tax asset only when it is probable that taxable profit will be available against which the credit can be utilised. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss account. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is no longer probable that the Group will pay normal income tax during the specified period.

(o) Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The contributions to the provident fund are charged to the statement of profit and loss for the year when an employee renders the related service. The Group has no obligation, other than the contribution payable to the provident fund.

The Group operates an unfunded defined benefit gratuity plan for its employees. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end, using the projected unit credit method and charged to statement of profit and loss. Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability, are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to statement of profit and loss in subsequent periods.

Accumulated leave is treated as short-term employee benefit as the Group has no unconditional right to defer the liability. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. Such compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss.

(p) Provisions and Contingent Liabilities

Provisions

General

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Warranty provisions

Provisions for warranty-related costs are recognised when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually.

Decommissioning liability

The Group records a provision for decommissioning costs of a leased facility. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the particular asset. The cash flows

are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is

expensed as incurred and recognised in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

Contingencies

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the

obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

(q) Earnings per share

Basic EPS amounts are calculated by dividing the profit or loss for the year attributable to equity holders of the Holding Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit or loss attributable to equity holders of the Holding Company (after adjusting the corresponding income/charge for dilutive potential equity shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

(r) Segment reporting

Identification of segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Only those business activities are identified as operating segment for which the operating results are regularly reviewed by the CODM to make decisions about resource allocation and performance measurement.

Inter-segment transfers

The Group generally accounts for inter-segment sales and transfers at cost plus appropriate margins.

Segment accounting policies

The Group prepares its segment information in conformity with the accounting policies adopted for the financial statements of the Group as a whole.

preparing and presenting

(s) Share based payments

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes Option Pricing Model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest.

No expense is recognised for awards that do not ultimately vest because service conditions have not been met.

Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(t) Borrowing costs

Borrowing costs to the extent directly attributable to the acquisition/construction of assets that necessarily take substantial period of time to get ready for their intended use are capitalised along with the respective property, plant and equipment up to the date such asset is ready for use. Other borrowing costs are charged to the statement of profit and loss.

(u) Cash and cash equivalents

Cash and cash equivalent in the balance sheet and for the purpose of statement of cash flows comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. These do not include bank balances earmarked/restricted for specific purposes.

Bank borrowings in form of cash credits are considered to be component of cash and cash equivalents for the purpose of statement of cash flows since these are repayable on demand.

(v) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

(w) Measurement of Earnings before Interest ,tax, depreciation and amortization (EBITDA)

Ind AS compliant Schedule III allows line items, sub-line items and sub-totals to be presented as an addition or substitution on the face of the financial statements when such presentation is relevant to an understanding of the Group's financial position /performance.

Accordingly, the Group has elected to present earnings before net finance cost, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Group measures EBITDA on the basis of profit/ (loss) from continuing operations. In its measurement, the Group does not include depreciation and amortization expense, interest income, finance costs, and tax expense.

(x) Treasury Shares

The group has created an Employee Welfare Trust (EWT) for providing share-based payment to its employees. The group uses EWT as a vehicle for distributing shares to employees under the employee remuneration schemes. The EWT buys shares of the company from the market, for giving shares to employees. The group treats EWT as its extension and shares held by EWT are treated as treasury shares.

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in general reserve. Share options exercised during the reporting period are satisfied with treasury shares.

(y) Recent accounting pronouncements issued but not yet effective

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' The amendments are applicable from 1 April 2017.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement. This amendment does not have any impact on recognition and measurement and will only require additional disclosures.

The Group will adopt this amendment with effect from 1 April 2017 and will provide additional disclosure.

Amendment to Ind AS 102:

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that includes a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

This amendment is not applicable to the Group.

2.2 Significant accounting estimates, assumptions and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities.

Uncertainty about these estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(i) Warranty Provision

Provisions for warranty related costs are recognized on the best estimate of expected costs when the product is sold. This is derived by level of repairs cases and repair calls during the historical period. The estimate of such Warranty related costs are reviewed and revised annually. For details please refer note 11.

(ii) Provision for obsolete inventory

Provisions for obsolete inventory is recognized on the basis of best estimate of expected volume and value as at reporting date. The Group calculates such provision by applying provision rates on the inventory classified into various age based brackets and by tracking the decrease in sales prices on the balance sheet date and subsequent period. For details please refer note 6.

(iii) Provision for trade receivables

Trade receivables do not carry any interest and are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the ageing of the receivable balances and historical experience adjusted for forward-looking estimates. Individual trade receivables are written off when management deems them not to be collectible. For details of allowance for doubtful debts please refer note 27.

(iv) Schemes, Incentives, Discounts and Returns

The Group products are often sold with discounts and incentives. Customers also have right to return the faulty goods. Historical experience is used to estimate and provide for the discounts and returns. Incentives are assessed by applying historical experience rates on the market inventories. The total carrying amount of provision for schemes, incentives and discounts is Rs. 118.83 million (31 March 2016 : Rs. 146.31 million, 1 April 2015 : Rs. 111.36 million). The total carrying amount of provision for sales returns is Rs. 87.65 million (31 March 2016 : Rs. 113.44 million, 1 April 2015 : Rs. 99.66 million)

(v) Defined benefit plans

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are excluded from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality corporate bonds.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for India. Further details about gratuity obligations are given in note 28.

(vi) Contingencies

Management judgement of contingencies is based on the internal assessments and opinion from the consultants for the possible outflow of resources, if any.

Textual information (3)**Statement of Ind AS compliance [Text Block]****(i) Compliance with Ind AS**

The consolidated financial statements of LAVA International Limited (the ‘Company’ or “Holding Company”) and its subsidiaries (collectively referred to as ‘Group’) and the Group’s interest in joint ventures and associate have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

For all periods up to and including the year ended 31 March 2016, the Group has prepared its financial statements in accordance accounting standards notified under Companies (Accounting Standard) Rules, 2006 as amended, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP). These financial statements for the year ended 31 March 2017 are the first financial statements of the Group under Ind AS. Reconciliations and descriptions of the effect of the transition has been summarised in note 37.

Textual information (4)

Disclosure of significant accounting policies [Text Block]

1. Corporate information

Lava International Limited ('Company' or 'Holding Company') is engaged in trading and manufacturing of mobile phones, storage devices and other wireless telecommunication devices. The Company is a public company domiciled in India and is incorporated under the provisions of Companies Act applicable in India. The registered office of the Company is located in Rohini, Delhi and the principal place of business is Noida, Uttar Pradesh. The Company has an in-house Research and Development Center in Bangalore, India and manufacturing facilities in Noida.

The Consolidated financial statements were authorised for issue in accordance with a resolution of the directors on 26 September 2017.

2. Basis of preparation

(i) Compliance with Ind AS

The consolidated financial statements of LAVA International Limited (the 'Company' or "Holding Company") and its subsidiaries (collectively referred to as 'Group') and the Group's interest in joint ventures and associate have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

For all periods up to and including the year ended 31 March 2016, the Group has prepared its financial statements in accordance accounting standards notified under Companies (Accounting Standard) Rules, 2006 as amended, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP). These financial statements for the year ended 31 March 2017 are the first financial statements of the Group under Ind AS. Reconciliations and descriptions of the effect of the transition has been summarised in note 37.

(ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following financial assets and liabilities which have been measured at fair value :

- Investments in equity instruments of other entities (at fair value through other comprehensive income)
- Investment in mutual funds (at fair value through profit or loss)

- Derivative financial instruments (at fair value through profit or loss)

The consolidated financial statements are presented in Indian rupees (Rs) and all values are rounded to nearest millions upto two decimals, except when otherwise stated.

2.1 Summary of significant accounting policies

(a) Principles of Consolidation

The consolidated financial statements comprise the financial statements of the Company, its subsidiaries and its interest in joint ventures and associates as at 31 March 2017. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The nature of the Group's operations and principal activities are set out in Note 38.

Specifically, the Group controls an investee if and only if the Group has:

Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee) Exposure, or rights, to variable returns from its involvement with the investee, and The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

The contractual arrangement with the other vote holders of the investee Rights arising from other contractual arrangements The Group's voting rights and potential voting rights The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the

three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

- a. Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date

- b. Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.

- c. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary

- Derecognises the carrying amount of any non-controlling interests

associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

If an entity's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture (which includes any long term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the consolidated statement of profit and loss.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognises the loss as 'Share of profit of an associate and a joint venture' in the statement of profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

(c) Current Vs Non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

(d) Property, plant and equipment

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment

Property, plant and equipment including capital work in progress are stated at historical cost less accumulated depreciation and impairment losses if any. Cost directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use, as intended by the management.

Subsequent costs are capitalised on the carrying amount or recognised as a separate asset, as appropriate, only when future economic benefits associated with the item are probable to flow to the Group and cost of the item can be measured reliably. When significant parts of property, plant and equipment are required to be replaced in regular intervals, the Group recognises such parts as separate component of assets. All repair and maintenance are charged to consolidated statement of profit and loss during the reporting period in which they are incurred.

The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated statement of profit and loss on the date of disposal or retirement.

Depreciation on property, plant and equipment is provided on a straight-line basis over the estimated useful lives of the assets as below:

Assets	Useful Lives
Office Equipment	3-5 Years
Furniture and fixtures*	3-5 Years
Demonstration Fixtures*	2 Years
Vehicles*	5 Years
Computer and Components*	3 Years
Plant and Machinery*	
Jigs	1 Years
Other Plant and Machinery	5-15 Years
Electrical Installations	10 Years

*Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which the management expects to use these assets. Hence the useful lives for these assets are different from useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Leasehold Improvements are amortized over the lease term or 10 years whichever is less.

When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under the non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work in progress'.

(e) Intangible assets

On transition to Ind AS, the Group has elected to continue with the carrying value of its intangible asset recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible asset.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

The useful lives of intangible assets is assessed as finite as stated below and the assets are amortised over their useful lives and assessed for impairment whenever there is an indication that an intangible asset may be impaired.

Assets	Useful Lives
Computer software (over license period)	1-5 Years

Internally generated software

2- 5Years

The amortization period and the amortization method are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Research and development costs

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Group can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale
- Its intention to complete the asset
- Its ability to use or sell the asset
- How the asset will generate future economic benefits
- The availability of adequate resources to complete the development and to use or sell the asset
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized on a straight line basis over the period of expected future benefit from the related project, i.e., the estimated useful life of one to ten years. Amortization is recognized in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

(f) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Group as a lessee

A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease. All other leases are classified as operating leases. Payments made under operating leases are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

(g) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations. These budgets and forecast calculations generally

cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses, including impairment on inventories, are recognised in the consolidated statement of profit and loss.

(h) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

Debt instruments at amortised cost Debt instruments at fair value through other comprehensive income (FVTOCI) Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is most applicable to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (“EIR”) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is considered only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as ‘accounting mismatch’).

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss. This category is applicable to investments in mutual funds.

Debt instrument at FVTOCI

A ‘debt instrument’ is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss (P&L). Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Equity Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value. All changes in fair value including dividend are recognized in the statement of profit and loss.

De-recognition

A financial asset is de-recognised only when

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement? and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a. Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- b. Loan commitments which are not measured as at FVTPL

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month expected credit loss (ECL) is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

The group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. For the financial assets measured as at amortised cost, contractual revenue receivables, ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to statement of profit and loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

Loans and Borrowings

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the EIR. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting financial instruments

Financial asset and financial liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(i) Derivative financial instrument

The Group uses derivative financial instruments i.e., forward and futures currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss. The Group has not applied hedge accounting.

(j) Fair value Measurement

The Group measure its financial instruments such as derivative at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (Unadjusted) marked prices in the active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the management or its expert verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents

(k) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials and spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis. Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on weighted average basis. Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in first out basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(l) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized.

Sale of Goods

Revenue from sale of goods is recognized when the significant risk and rewards of ownership of the goods have been passed to the buyer which generally coincides with delivery of goods, as per the contractual terms with customers. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and is inclusive of excise duty and net of returns and allowances, trade discount, volume rebates and value added taxes. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

The Group accounts for volume discount for pricing incentives to customers as a reduction of revenue based on estimate of applicable discount/incentives.

Sale of Services

Revenue from sales of services is recognized by reference to the stage of completion, net of service tax. Stage of completion is measured by reference to services performed to date as a percentage of total services to be performed.

Interest

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the EIR. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

(m) Foreign currencies

(i) Functional and presentation currency

Items included in the financial statements of the Group are measured using the respective currency of the primary economic environment in which in which the entity in Group operates i.e. the “functional currency”. These financial statements are presented in Indian rupees, which is also the functional currency of the parent Company. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

(ii) Transactions and balances

Transactions in foreign currencies are initially recorded by the Group’s entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of the following:

- Exchange differences arising on monetary items that forms part of a reporting entity’s net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity (e.g., consolidated financial statements when the foreign operation is a subsidiary), such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

- Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

On consolidation, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

For translating income, expense and cash flows items, during the year ended 31 March 2017, the rates used were US \$ 1 = Rs. 67.19, CNY 1 = Rs. 9.97, and HKD 1 = Rs. 8.65. For translating assets and liabilities at the year-end, the rates used were US \$ 1 = Rs. 64.84, CNY 1 = Rs. 9.42 and HKD 1 = Rs. 8.35. During the year ended 31 March 2016, the rates used for translating income, expense and cash flows items were

US \$ 1 = Rs. 65.54, CNY 1 = Rs. 10.30, and HKD 1 = Rs. 8.44 and for translating assets and liabilities rates used were US \$ 1 = Rs. 66.51, CNY 1 = Rs. 10.27 and HKD 1 = Rs. 8.53. For the opening balance sheet as at 1 April 2015, the rates used for translating assets and liabilities were US \$ 1 = Rs. 62.59, CNY 1 = Rs. 10.08 and HKD 1 = Rs. 8.05.

(n) Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in India.

Current income tax relating to items recognised outside statement of profit and loss is recognised either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. Payments of tax as per Minimum Alternative Tax (MAT) is included as part of current tax in statement of profit and loss.

Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements as at reporting date. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

· When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

· In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside statement of profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

MAT is applicable to the Group. Credit of MAT is recognised as deferred tax asset only when it is probable that taxable profit will be available against which the credit can be utilised. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss account. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is no longer probable that the Group will pay normal income tax during the specified period.

(o) Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The contributions to the provident fund are charged to the statement of profit and loss for the year when an employee renders the related service. The Group has no obligation, other than the contribution payable to the provident fund.

The Group operates an unfunded defined benefit gratuity plan for its employees. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end, using the projected unit credit method and charged to statement of profit and loss. Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability, are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to statement of profit and loss in subsequent periods.

Accumulated leave is treated as short-term employee benefit as the Group has no unconditional right to defer the liability. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. Such compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss.

(p) Provisions and Contingent Liabilities

Provisions

General

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Warranty provisions

Provisions for warranty-related costs are recognised when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually.

Decommissioning liability

The Group records a provision for decommissioning costs of a leased facility. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the particular asset. The cash flows

are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is

expensed as incurred and recognised in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

Contingencies

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the

obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

(q) Earnings per share

Basic EPS amounts are calculated by dividing the profit or loss for the year attributable to equity holders of the Holding Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit or loss attributable to equity holders of the Holding Company (after adjusting the corresponding income/charge for dilutive potential equity shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

(r) Segment reporting

Identification of segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Only those business activities are identified as operating segment for which the operating results are regularly reviewed by the CODM to make decisions about resource allocation and performance measurement.

Inter-segment transfers

The Group generally accounts for inter-segment sales and transfers at cost plus appropriate margins.

Segment accounting policies

The Group prepares its segment information in conformity with the accounting policies adopted for the financial statements of the Group as a whole.

preparing and presenting

(s) Share based payments

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes Option Pricing Model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest.

No expense is recognised for awards that do not ultimately vest because service conditions have not been met.

Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(t) Borrowing costs

Borrowing costs to the extent directly attributable to the acquisition/construction of assets that necessarily take substantial period of time to get ready for their intended use are capitalised along with the respective property, plant and equipment up to the date such asset is ready for use. Other borrowing costs are charged to the statement of profit and loss.

(u) Cash and cash equivalents

Cash and cash equivalent in the balance sheet and for the purpose of statement of cash flows comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. These do not include bank balances earmarked/restricted for specific purposes.

Bank borrowings in form of cash credits are considered to be component of cash and cash equivalents for the purpose of statement of cash flows since these are repayable on demand.

(v) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

(w) Measurement of Earnings before Interest ,tax, depreciation and amortization (EBITDA)

Ind AS compliant Schedule III allows line items, sub-line items and sub-totals to be presented as an addition or substitution on the face of the financial statements when such presentation is relevant to an understanding of the Group's financial position /performance.

Accordingly, the Group has elected to present earnings before net finance cost, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Group measures EBITDA on the basis of profit/ (loss) from continuing operations. In its measurement, the Group does not include depreciation and amortization expense, interest income, finance costs, and tax expense.

(x) Treasury Shares

The group has created an Employee Welfare Trust (EWT) for providing share-based payment to its employees. The group uses EWT as a vehicle for distributing shares to employees under the employee remuneration schemes. The EWT buys shares of the company from the market, for giving shares to employees. The group treats EWT as its extension and shares held by EWT are treated as treasury shares.

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in general reserve. Share options exercised during the reporting period are satisfied with treasury shares.

(y) Recent accounting pronouncements issued but not yet effective

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' The amendments are applicable from 1 April 2017.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement. This amendment does not have any impact on recognition and measurement and will only require additional disclosures.

The Group will adopt this amendment with effect from 1 April 2017 and will provide additional disclosure.

Amendment to Ind AS 102:

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that includes a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

This amendment is not applicable to the Group.

2.2 Significant accounting estimates, assumptions and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities.

Uncertainty about these estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(i) Warranty Provision

Provisions for warranty related costs are recognized on the best estimate of expected costs when the product is sold. This is derived by level of repairs cases and repair calls during the historical period. The estimate of such Warranty related costs are reviewed and revised annually. For details please refer note 11.

(ii) Provision for obsolete inventory

Provisions for obsolete inventory is recognized on the basis of best estimate of expected volume and value as at reporting date. The Group calculates such provision by applying provision rates on the inventory classified into various age based brackets and by tracking the decrease in sales prices on the balance sheet date and subsequent period. For details please refer note 6.

(iii) Provision for trade receivables

Trade receivables do not carry any interest and are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the ageing of the receivable balances and historical experience adjusted for forward-looking estimates. Individual trade receivables are written off when management deems them not to be collectible. For details of allowance for doubtful debts please refer note 27.

(iv) Schemes, Incentives, Discounts and Returns

The Group products are often sold with discounts and incentives. Customers also have right to return the faulty goods. Historical experience is used to estimate and provide for the discounts and returns. Incentives are assessed by applying historical experience rates on the market inventories. The total carrying amount of provision for schemes, incentives and discounts is Rs. 118.83 million (31 March 2016 : Rs. 146.31 million, 1 April 2015 : Rs. 111.36 million). The total carrying amount of provision for sales returns is Rs. 87.65 million (31 March 2016 : Rs. 113.44 million, 1 April 2015 : Rs. 99.66 million)

(v) Defined benefit plans

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are excluded from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality corporate bonds.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for India. Further details about gratuity obligations are given in note 28.

(vi) Contingencies

Management judgement of contingencies is based on the internal assessments and opinion from the consultants for the possible outflow of resources, if any.

Disclosure of income tax [Text Block]

Note 23 Income Tax

(a) The major components of income tax expense for the years ended 31 March 2017 and 31 March 2016 are:

Current income tax:	31st March, 2017	31st March, 2016
Current income tax charge	1,396.43	775.60
Adjustments in respect of current income tax of previous year	(5.14)	-
Deferred tax :		
Relating to origination and reversal of temporary differences	(690.06)	334.37
Total tax expense on profit of the year (a)	701.23	1,109.97
Other comprehensive income		
Deferred tax related to items recognised in other comprehensive income during in the year:		
- Re-measurement losses of defined benefit plan	(2.79)	(1.97)
- Change in fair value of FVTOCI equity instruments	(5.77)	3.46
Total tax expense on other comprehensive income of the year (b)	(8.56)	1.49
Total tax expense on total comprehensive income of the year (a) + (b)	692.67	1,111.46

(b) Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate

Particulars	31st March, 2017	31st March, 2016
-------------	------------------	------------------

Accounting profit before tax	2,291.02	3,784.17
Tax rate in India	34.608%	34.608%
Tax	792.88	1,309.63
Non deductible expense for tax purpose	29.40	25.72
Tax benefits in respective jurisdictions	(112.62)	(119.54)
Difference in overseas tax rates	(8.03)	(102.49)
Tax losses for which no deferred tax asset was recognized	4.61	22.41
Tax pertaining to earlier years	(5.14)	-
Differences due to capital gain rate	(9.21)	(0.01)
Share of profits / (losses) in associates and joint ventures	0.93	(8.61)
Others	8.41	(17.14)

(c) Deferred tax

Deferred tax relates to the following:

Deferred tax liabilities (net)	31st March, 2017	31st March, 2016	1st April, 2015
a) Deferred tax liability due to			
Depreciation	-	11.44	16.95
Tax on CVD(43B) to be paid in future years	444.84	1,035.26	558.96
MTM on current investment and derivative instruments	-	-	2.02
DDT on undistributed profit of associate	3.48	-	-

Others	0.26	0.39	1.71
Total	448.58	1,047.09	579.64
b) Deferred tax asset arising out of			
MTM on current investment and derivative instruments	(13.41)	(8.46)	-
Depreciation	(15.24)	-	-
Expense allowable for tax purposes when paid	(66.57)	(49.03)	(21.82)
Provision for doubtful debts and advances	(41.94)	(2.44)	(5.89)
Provision for obsolescence of inventories	(104.75)	(76.74)	(75.10)
Provision for promotional schemes	(47.22)	(58.66)	(44.91)
Unrealised profit on unsold inventory	(4.11)	(9.42)	(2.37)
Others	(3.05)	-	(0.05)
Total	(296.29)	(204.75)	(150.14)
MAT credit entitlement	-	(298.96)	(219.13)
Deferred tax liabilities (net) before OCI items	152.29	543.38	210.37

Deferred tax related to items recognised in OCI during the year:

Change in fair value of FVTOCI equity instruments	(2.31)	3.46	-
Re-measurement losses of defined benefit plan	(7.99)	(5.20)	(3.23)
Deferred tax liability (DTA) for OCI items (B)	(10.30)	(1.74)	(3.23)
Deferred tax liabilities (net)	141.99	541.64	207.14

Deferred tax assets (net)

Balance Sheet

a) Deferred tax liability due to

31 March 2017

	31 March 2016	1 April 2015
Depreciation	5.79	5.92
Provision for obsolescence of inventories	3.03	3.09
	8.82	9.01
b) Deferred tax asset arising out of		
Allowable Intangible Asset		
Unrealised profit on Inventory	(16.77)	(17.51)
Depreciation	(1.78)	(1.82)
Expense allowable for tax purposes when paid	-	-
Others	(0.02)	-
Total	(18.57)	(19.33)
Deferred tax assets (net)	(9.75)	(10.32)
	(7.63)	

Statement of Profit and Loss

Particulars	31 March 2017	31 March 2016
Depreciation	(26.77)	(5.01)
Expense allowable for tax purposes when paid	(17.54)	(20.34)
Provision for doubtful debts and advances	(39.51)	3.45
Provision for obsolescence of inventories	(28.06)	1.45

Tax on Custom Duty (43B) to be paid in future years	(590.42)	476.30
Provision for promotional schemes	11.44	(13.75)
MTM on current investment and derivative instruments	(4.95)	(10.48)
DDT on undistributed profit of associate	3.48	-
Unrealised profit on inventory	6.05	(20.19)
Others	(3.78)	2.77
Net deferred tax expense/(income) before MAT on profit for the year	(690.06)	414.20
MAT credit entitlement	-	(79.83)
Net deferred tax expense/(income) on profit for the year	(690.06)	334.37
Deferred tax related to other comprehensive income of the year:		
Change in fair value of FVTOCI equity instruments	(5.77)	3.46
Re-measurement losses of defined benefit plan	(2.79)	(1.97)
Foreign exchange differences		
Net deferred tax liability on other comprehensive income for the year	(8.56)	1.49
Net deferred tax expense/(income)	(698.62)	335.86
Net deferred tax expense/(income)		

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

Moreover, deferred tax liability has not been recognised with respect to unremitted retained earnings and associated foreign currency translation reserve with respect to certain of its subsidiaries and joint venture where the Group is in a position to control the timing of distribution of the profits and it is probable that the subsidiary will not distribute the profits in the foreseeable future.

Reflected in the balance sheet as follows:-

	31 March 2017	31 March 2016	31 March 2015
Deferred tax liabilities	141.99	541.64	207.14
Deferred tax asset	(9.75)	(10.32)	(7.63)
Deferred tax liabilities (net)	132.24	531.32	199.51

Reconciliation of deferred tax liability (net)

	31 March 2017	31 March 2016
At the beginning of the year	531.32	199.51
Tax income/(expense) during the year recognised in profit or loss	(690.06)	334.37
MAT credit availed	298.96	-
Tax income/(expense) during the year recognised in OCI	(8.56)	1.49
Exchange difference	0.58	(4.05)
At the end of the year	132.24	531.32

[611800] Notes - Revenue

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2016 to 31/03/2017
Disclosure of revenue [TextBlock]	Textual information (7) [See below]

Textual information (7)**Disclosure of revenue [Text Block]****Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized.

Sale of Goods

Revenue from sale of goods is recognized when the significant risk and rewards of ownership of the goods have been passed to the buyer which generally coincides with delivery of goods, as per the contractual terms with customers. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and is inclusive of excise duty and net of returns and allowances, trade discount, volume rebates and value added taxes. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

The Group accounts for volume discount for pricing incentives to customers as a reduction of revenue based on estimate of applicable discount/incentives.

Sale of Services

Revenue from sales of services is recognized by reference to the stage of completion, net of service tax. Stage of completion is measured by reference to services performed to date as a percentage of total services to be performed.

Interest

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the EIR. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

28. Post-employment benefits plan

Gratuity

The Holding Company has unfunded defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service.

The following table summarizes the components of net benefit expense recognized in the statement of profit and loss for gratuity plan and amounts recognised in the balance sheet in respect of same.

Statement of profit and loss

Net employee benefit expense recognized in the employee cost

	31 March 2017	31 March 2016
Current service cost	39.83	22.53
Interest cost on benefit obligation	4.01	2.26
Net benefit expense	43.84	24.79

Balance sheet

Benefit asset/liability

	31 March 2017	31 March 2016	1 April 2015
Present value of defined benefit obligation	(90.02)	(53.50)	(34.78)
Net asset/(liability) recognised in balance sheet	(90.02)	(53.50)	(34.78)

Changes in the present value of the defined benefit obligation are as follows:

	31 March 2017	31 March 2016
Opening defined benefit obligation	53.50	34.78
Current service cost	39.83	22.53

Interest cost	4.01	2.26
Total Amount recognised in profit & loss	43.84	24.79
Re-measurement losses of defined benefit plan :		
- Due to changes in demographic assumptions	-	-
- Due to changes in financial assumptions	3.23	0.44
- Due to experience adjustment	4.83	5.24
Total Amount recognised in other comprehensive income	8.06	5.68
Benefits paid	(15.38)	(11.75)
Closing defined benefit obligation	90.02	53.50

The principal assumptions used in determining gratuity benefits are as below:

	31 March 2017
Discount rate	6.25%
Employee turnover	30%
Salary Escalation Rate	10%

Amounts for the current and previous four periods are as follows:

	31 March 2017	31 March 2014	31 March 2013
Gratuity			
Defined benefit obligation	90.02	21.86	10.88
Experience adjustments on liabilities Gain / (loss)	(4.83)	(2.26)	(1.18)

Sensitivity Analysis:

	31 March 2017	31 March 2016	1 April 2015
Projected benefit obligation on current assumptions	90.02	53.50	34.78
Delta effect of +1 % change in discount rate	(2.61)	(1.44)	(0.92)
Delta effect of -1 % change in discount rate	2.79	1.53	0.98
Delta effect of +1 % change in salary escalation rate	(2.79)	(1.56)	(1.01)
Delta effect of -1 % Change in salary escalation rate	2.92	1.63	1.05
Delta effect of +25 % change in rate of employee turnover	4.86	1.39	0.78
Delta effect of -25 % change in rate of employee turnover	(2.96)	(0.84)	(0.47)

29. Segment information

Ind AS 108 establishes standards for the way that companies report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The Group's operations pre-dominantly relate to sales of mobile handsets in India through the distributor and retailers network. The Chief Operating Decision Maker (CODM) evaluates the Group's performance and allocates resources based on analysis of various performance indicators pertaining to business as a single segment. Accordingly, information has been presented only for geographical segments. The accounting principles used in preparation of the financial statements are consistently applied to record revenue and expenditure in segment information, and are as set out in the significant accounting policies.

Business segment of the Group is primarily sale of mobile handsets. The Group has started manufacturing of handsets recently and does not identify sales of traded handsets and sale of manufactured handsets differently given the risks and rewards are the same. Further, the majority of the sales are through the distributors channel against advances and the export sales are not significant.

Assets and liabilities used in the Group's business are not identifiable to any of the reportable segments, as these are used interchangeably between segments.

Geographical information on revenues and business segments revenue information are collated based on individual customers invoiced or in relation to which revenue is otherwise recognized.

Geographical information:

The following table presents geographical information regarding the Group's revenue :

As at	31 March 2017	31 March 2016
India	33,821.40	45,360.86
Thailand	10,594.45	21,352.25
Dubai	4,477.29	2,415.15
Others	10,510.09	3,589.77
Total	59,403.23	72,718.03

Revenues of approximately Rs. 10,594.45 million (31 March 2016: Rs. 21,352.25 million) are derived from a single external customer.

The following tables present geographical information regarding the Group's non current assets as defined in Ind AS 108 :

As at	31 March 2017	31 March 2016	1 April 2015
India	901.07	865.56	439.96

Dubai	439.65	9.01	-
Others	352.30	234.73	171.80
Total	1,693.02	1,109.30	611.76

(c) Contingent liabilities

	31 March 2017	31 March 2016	1 April 2015
Bank guarantees	183.23	615.45	53.97
Claims against the Group not acknowledged as debts (excluding cases where the possibility of any outflow in settlement is remote):			
(i) Sales tax demands (refer note (i))	80.33	76.72	8.25
(ii) Others (refer note (ii))	263.56	692.17	62.22

(i) Sales tax demands

The Honble Supreme Court of India vide its order dated 17 December 2014 in the case of State of Punjab Vs Nokia India Pvt Limited, has held that the mobile charger contained in the mobile phone retail pack is an independent part and shall be separately charged to VAT at rate as applicable to the chargers. The appellant has already approached the Hon'ble Supreme Court in a review petition challenging the judgement. In view of this judgement, the VAT Authorities of various states have raised demands along with interest and penalties aggregating to Rs. 112.91 million (31 March 2016: Rs. 112.48 million). The Holding Company has filed appeal against these demands. Amount paid under protest against demands amounting to Rs. 32.58 million (31 March 2016: Rs. 35.76 million) have been disclosed under Balance with statutory/government authorities in other assets.

Based on the managements legal assessment, it believes that the possibility of materializing sales demands is not probable. Accordingly, no provision is made in the financial statements for such demands.

The amount above does not include sales tax demands received of Rs. 13.92 million (31 March 2016: Rs. 8.96 million) (net of amount paid under protest of Rs. 5.99 million (31 March 2016: Rs. 7.07 million)) from various sales tax authorities for which the management believes that the possibility of materializing the demand is remote.

(ii) Others

M/s Telefonaktiebolaget LM Ericsson (Ericsson) filed a Suit for infringement of patents against the Holding Company in the month of March 2015. The said Suit was part of the series of suits being filed by Ericsson against many mobile handset manufacturers in India. During 2015, the Holding Company has filed a counter civil suit against Telefonaktiebolaget LM Ericsson (Ericsson) before the Honble District Court, Gautam Budh Nagar due to certain breaches.

Subsequent to Lavas institution of the suit in the District Court of Gautam Buddha Nagar, Ericsson has filed a suit for permanent injunction against the Holding Company before Honble High Court, Delhi, on 23 March 2015 for infringement of Ericssons certain patents.

Honble District Court, Gautam Budh Nagar has issued notice to Ericsson. Before Ericsson filed its written statement, on application of the parties, Honble Supreme Court ordered for transfer of the matter to Delhi High Court vide its order dated 31 July 2015 and the same is clubbed with the pending suit of Ericsson before the Delhi High Court.

Honble High Court, Delhi vide its order dated 22 June 2016 has passed an interim order wherein the the Holding Company was injuncted

from manufacturing, importing, selling its devices, subject to the condition of deposit of Rs. 300.00 million with the Registrar General of Delhi High Court. However, the operation of Interim Order was stayed till the final disposal of the main suit. The Holding Company has complied with the said order and deposited a sum of Rs. 300.00 million. Presently the main suit is pending before the Delhi High Court and next hearing is scheduled on 06 November 2017. Based on legal advice the Holding Company does not expect any financial statement exposure upon final settlement and accordingly no provision has been made in the financial statement of the Group.

Apart from above, there is no other claim/case being contested by the Group with any other standard essential patent providers and the Group is confident of there being no infringement of patents.

In certain States, an entry tax is levied on receipt of material from outside the State. This position has been challenged by the Holding Company in the respective States, on the grounds that the specific entry tax is ultra vires the Constitution. The Holding Company has been paying entry tax and recording the amount of Rs. 131.14 million as recoverable. The amount has been disclosed under Balance with statutory/government authorities. The Holding Company based on legal opinion is of the view that the entry tax being paid is not constitutional and the Holding Company expects the refund ultimately.

XOLO Technology (Shenzhen) Company Limited (XOLO Shenzhen), (a subsidiary of the Holding Company) incorporated in Shenzhen, China. As per the social insurance laws of the People Republic of China (PRC), the Company and its employees are required to contribute towards social medical insurance on the basis of actual wages. The Company, is contributing on the basis of amounts agreed with the employees and basis legal opinion, considers itself to be in compliance with the social insurance law. Additional liability as on reporting date amounts to Rs. 238.70 million (31 March 2016 : Rs. 113.30 million, 1 April 2015: Rs. 4.20 million).

Other claims against the Holding company, not acknowledged as debt towards a legal claim filed by a vendor is Rs. 70 Million (31st March, 2016; Rs. 70 Million, 1st April, 2015 Rs. 70 Million)
